

**DEATH OF A VANGUARD**—This series of pictures shows the Navy's satellite — carrying Vanguard missile as it broke up in midair after reaching an altitude of about 20,000. The 72-ft. rocket was destroyed after being launched from Cape Canaveral, Fla., when it wobbled crazily off course. (NEA Telephoto)

### New Try Due Next Month

## Navy Is Uncertain Whether It Can Orbit on Schedule

WASHINGTON (AP) — The Navy, studying the remains of two Vanguard rockets that failed, was uncertain today whether it could orbit a fully instrumented earth satellite on schedule next month.

Instead, Navy spokesmen were talking about doing it sometime within the International Geophysical Year. That is their basic commitment. The IGY, a worldwide cooperative research effort, will end Dec. 31.

Meanwhile, it was learned the Air Force has told the Defense Department it believes it could launch a thousand-pound space vehicle by next June. The Air force would use its Thor inter-

## County School Board Holds Annual Meet

Representatives of all rural and elementary schools throughout the county were on hand Wednesday to attend the annual Pettis County school board meeting at the courthouse in Sedalia.

The meeting was held in the assembly room of the courthouse, and was presided over by Dr. C. W. Scotten, county superintendent. Ray Evans from the Missouri state department of education was on hand to assist in the meeting and gave a short talk on the major problems confronting American educators today.

He pointed out that one of the major problems was the teacher shortage and keeping teachers in the education field. Attractive salaries in other professions, he pointed out, attract many teachers from the schoolroom, leaving a gap that can only be filled with new teachers. He also stated that the development of a well-rounded program was essential to good education. He also emphasized that the type of program developed in each school should meet the needs of that particular community.

A well-rounded education program, he explained, is one that covers all subjects a child might expect to encounter throughout his lifetime and should not stress any one particular phase of learning over all others.

The meeting began at 1:15 p.m. with the making of announcements and reading of the necessary correspondence by Mrs. Janice Winfield. After the preliminaries, Scotten led in the workshop, in which he had divided the districts into four groups to work out plans for the 1958-59 school year budget. He was assisted by the chairman who led the groups: Mrs. W. C. Corlew, clerk of the Lone Star school board; R. C. Wissman, president of the Anderson school board; Mrs. Mamie McCormick

### Late Bulletin

### House Okays Changes

WASHINGTON (AP) — The House rushed to President Eisenhower today an emergency bill appropriating \$1,410,000,000 to speed up the missile and air defense programs. By voice vote the House accepted Senate amendments to a bill passed originally by the House on Jan. 23.

## British Plane Crashes

**German Police Say At Least 15 Die; Champion Soccer Team Is Aboard**

MUNICH, Germany (AP)—A British European Airways plane with Britain's championship soccer team aboard crashed on take-off today. German police said at least 15 of the 44 persons aboard were killed.

The two-engine airliner crashed into houses in the village of Kirchdrudung and burst into flames.

A BEA spokesman in London said the survivors included some members of the team, the famous Manchester United. He said among the other survivors were four of the crew of six.

Police believed at least two members of a German family were killed when the plane struck their home.

Manchester United played the Red star team of Belgrade in the European cup match yesterday, which ended in a 3-3 draw, but sent the European club into the semifinals. The club, with 17 players and three officials, was returning to England.

The team has been outstanding in postwar soccer.

A travel agent in London said it was understood there were 11 sports writers on the plane, including Henry Rose of the Daily Express and Frank Swift of News of the World.

The agency said also aboard were Frank Taylor of the London News Chronicle and these newsmen: George Fellows, Tom Jackson, P. Howard, E. A. Ellyard, Eric Thompson, H. D. Davies and A. Clarke.

The BEA plane was a twin-engine medium range airliner built by Airspeed Ltd., one of the British de Havilland group.

### Sputnik, Explorer Cross US Thursday

CAMBRIDGE, Mass. (AP)—America's satellite, Explorer, and the Soviet Sputnik II both criss-cross the United States today on different routes and altitudes.

Sputnik II crossed the southern part of the United States and was visible, with proper atmospheric conditions, to early risers.

The Soviet moon made three U. S. sweeps beginning with one in the east and ending with a passage 100 miles southwest of Los Angeles at a height of about 140 miles.

America's satellite, the Explorer, was to make evening passages and would be difficult to see because of its altitude of about 800 miles.

The first passage starts about 6:19 p. m. EST in northern Mexico, crosses Texas, Arkansas, northern Mississippi, Alabama and Georgia before leaving the coast of Cape Hatteras five minutes later.

### Much Colder, Snow, Freezing Rain Seen

KANSAS CITY (AP)—Much colder weather moved into Missouri today with freezing rain and snow forecast for the southeast portion.

The snow in the southeast is expected to accumulate to two to four inches.

Over the rest of the state it will be partly cloudy northwest and mostly cloudy east tonight.

Much colder weather is forecast for tonight with lows near zero on the northern border and between 15 and 20 in the extreme south. Friday's highs will be around 15 north to the lower 20s south.

### Stratojet Missing With Three Aboard

MARCH AIR FORCE BASE, Calif. (AP)—A six-engine B47 Stratojet bomber is missing and presumed lost with its three-man crew, this southern California base reported last night.

Planes are searching for it in the area of San Miguel Island 45 miles off the coast of Santa Barbara, said Maj. Craig Powell, March AFB public information officer.

The plane last reported itself over Santa Barbara at 5:56 p.m., Maj. Powell said.

## New Feud With Reds On Ships

**Concerns Arms Hunt By French Aboard Polish Freighter**

PARIS (AP)—For the second time in less than a month France found itself in a dispute with a Communist country today over the stopping of a Red-flag ship at sea in a search for arms.

The latest incident involved the 10,000-ton Polish freighter Wisla, halted in the Atlantic three days ago on suspicion she was carrying arms intended for Algerian rebels. No arms were found.

Axies Kjaergard Co., agents for the Polish ship, said at Rabat, the Moroccan capital, that the Wisla was stopped about 22 miles off the Moroccan coast.

The Polish government, in announcing last night a protest against violation of freedom of the seas, said three warships intercepted the Wisla and a French officer and four sailors searched her hold.

The French government admitted its warships stopped the Wisla. It said the ship was allowed to continue when no arms were found.

On Jan. 18 French navy units halted the Casablanca-bound 5,800-ton Yugoslav freighter Slovenka off the Algerian coast and forced her to unload 150 tons of arms at Oran. The arms were confiscated.

Yugoslavia protested that the ship was halted 45 miles from the Algerian coast, well outside normal territorial waters.

Attention was called then to a French decree published in November 1956, declaring France reserved the right to check on ships within 31 miles of the Algerian coast. He said no nation protested the decree.

The French claimed the Slovenka's arms had been purchased in Prague by an agent for the Algerian National Liberation Front and were bound for Algeria by way of Morocco. The Yugoslavs protested, claiming the arms were a normal commercial shipment consigned to a Moroccan.

The Moroccan government denied any knowledge of the arms shipment.

### Trooper Returns Fire, Captures Two Men

JEFFERSON CITY (AP)—Shot at by one of two men he had stopped on the highway for a routine check Highway Trooper B. E. Duncan returned the fire yesterday and captured two men wanted for questioning about an automobile theft.

Neither Duncan nor William Howard Blackburn, 20, of Chicago was hit. Duncan said that on his second shot, Blackburn dropped his gun and surrendered.

With Blackburn was Frank Charles Phillips, 20, of Chicago. Chicago authorities said the car they were driving was stolen there earlier this week.

The incident occurred on U. S. 50 near St. Martin's. Both men were held in the Cole County jail.

### New Building Finance System

## Blair Will Present Special Message on Improvements

JEFFERSON CITY (AP)—Gov. James T. Blair's ideas for long range planning of capital improvements will be submitted to the Legislature in a special message next Wednesday.

The governor said today he wants the special session at least to make a start on setting up a new system of financing state buildings to avoid the necessity of any more bond issues.

At the same time Blair said he would seek a more centralized purchasing system in line with the "Little Hoover" Commission's recommendation that the big state buying job be put under the comptroller and budget director instead of the Revenue Department.

In a discursive chat at his news conference, the governor talked for a half hour about his plans to put the state govern-

ment on a more business like basis.

"You can't do all these things at once," he commented.

He noted that since 1945 the state has spent almost \$100 million from postwar reserve funds on capital improvements and is in the process of spending \$75 million more from the building bond issue approved by the voters.

"But it's all been on a crisis basis," he said. "Big groups have been competing for the money. And that, in my judgment, is not the best way to carry on a long range program."

He said his message next week, which he described as a long one would try to spell out his ideas for a long range plan. He will deliver the message in person at a joint Senate-House session.

The "Little Hoover" Commission recommended that the director of public buildings, consulting with the budget director and department heads, prepare a

six-year capital improvements budget for submission to the governor and the Legislature.

The Legislature then would authorize preparation of plans for each item approved but actual appropriations would be subject to later legislative action.

Blair said such a system might ultimately require a tax increase. But he emphasized "there is not going to be any tax increase this session. I'm not going to recommend anything that can be construed as a tax increase."

The 60-day special session may consider only the topics submitted by the governor.

Blair said his message would include "a number of other matters, including some of the 'Little Hoover' recommendations which have met tough going in past sessions. He conceded that some would be highly controversial."

"I'm very much sold on the 'Little Hoover' Commission report," he said. "I believe the people are tax conscious and cost

conscious enough now that they will generally agree with the recommendations."

Blair noted that under the present purchasing setup, institutions like the state mental hospital are "all going in different directions" in their buying, while the State Highway Department, the colleges and universities all have purchasing systems of their own.

The "Little Hoover" Commission made a series of recommendations aimed at putting state purchasing on a more business like basis.

The commission's report, submitted to former Gov. Phil M. Donnelly in 1955, was the work of a special commission of citizens and legislators headed by former Sen. Francis Smith of St. Joseph.

Blair already has put some of the recommendations into effect by administrative order and got the Legislature to approve one of the big ones last year in getting up his new staff of budget analysts.

### Colonel Lewis Becomes Base Commander

**Col. Kline Moves Up As Assistant Wing Commander**

Col. Harold E. Humfeld, 340th Bomb Wing Commander, today announced the appointment of Col. Richard W. Kline to his staff as special assistant to the commanding officer. Col. William C. Lewis assumed the duties of base commander.

In making these key staff changes, Col. Humfeld said: "The wing is faced with some very real on-the-job-training and retention of personnel problems with many ramifications that require experienced and expeditious handling to insure the wing's capabilities and efficiency. Col. Kline's assignment will solve these problems."

Col. Lewis has served as director of operations since his arrival at Whiteman AFB in May, 1955. He has been in the Strategic Air Command since 1947, when he was assigned as supervisor of flying training at SAC headquarters at Andrews Field, Maryland.

Col. Lewis is a veteran of World War II and the Korean air offensive, with 53 combat missions and 253 combat hours to his credit. He has been awarded the Silver Star Medal, the Distinguished Flying Cross, the Purple Heart Medal, the Air Medal with 12 Oak Leaf Clusters, and other combat decorations and service awards.

Lt. Col. Flavel P. Sabin, former commander of the 486th Bomb Squadron, and more recently the deputy director of operations, assumes the post of WAFB director of operations. Col. Sabin flew the first B-47 into Whiteman AFB in May, 1954. He has a distinguished record of 900 combat hours to his credit and was awarded the Distinguished Flying Cross with one Oak Leaf Cluster, the Air Medal with three Oak Leaf Clusters, the Purple Heart Medal and other awards.

As a result of the shift in personnel, Maj. Zane G. Hall is assigned as deputy director of operations. Maj. Chester K. Maxwell takes over as chief of the Wing Training Section, and Capt. Fred L. McCulley becomes staff special weapons officer.

The assignment of a special assistant to the wing commander follows the trend set by many large civilian industries whose executives have such assistants to speed up and smooth out many complex problems that confront the organization.

### No Personal Calls

## Chief Says Fire Phone Is Used for Fires Only

Fire Chief John Lueck reminds Sedalians that TA 6-2121 is the emergency fire phone for the Sedalia Fire Department and that only those persons who want the fire department for a fire should call this number.

## No-Muscling Order Given By Governor

JEFFERSON CITY (AP)—Gov. James T. Blair has issued orders to stop hoodlums from muscling into the tavern and cigarette vending machine business in Missouri.

He told state law enforcement agencies yesterday to take any steps necessary to break up an apparent effort of hoodlums to move into the St. Louis area. He said he acted after reading newspaper accounts and getting reports from St. Louis police officers.

He ordered Hollis Ketchum, state liquor control supervisor, to investigate reports that some tavern operators had borrowed money from a loan company backed by men with police records. If the reports prove true, the governor said, the borrowers' liquor licenses will not be renewed.

Blair names John J. Vitale, Anthony Giardano, Ralph Calico, Isadore Londe and Anthony Loppiano as the backers of a move to take over businesses in St. Louis County through the Anthony Novelty Co., Automatic Sales Co. and Anthony Discount Corp. of Pine Lawn, in St. Louis County.

The governor said the cigarette tax situation and the loan company also would be investigated and he ordered the Highway Patrol to cooperate fully with the other state agencies involved.

"There are plenty of good business people in Missouri," Blair said. "We don't need those fellows here."

### New Traffic Lights At Four Intersections

The new traffic lights will be turned on at four intersections on Friday at 9 a.m., according to the Missouri Public Service Co. The intersections are: Main and Grand, Third and Grand, 16th and Grand and Third and Missouri.

### Good Excuse

It turned warm enough the past two days to get the cars covered with mud from slush, and now it's turning cold enough to prevent getting those cars washed. Subversive!

Partly cloudy and much colder tonight; continued cold Friday; low tonight 5-10; high Friday near 20.

The temperature at 7 a.m. was 22, which also was the low for Wednesday night, 28 at 1 p.m., and 29 at 2 p.m.

The temperature one year ago today, high 40, low 23, with .09 inch of moisture; two years ago, high 39, low 24; and three years ago, high 36, low 30, with .15 inch of moisture.

Stage at Lake of the Ozarks 57.2, fall .1.

### Blair Appears Before House Committee

**Hurries to Defend His Predictions On Tax Collections**

JEFFERSON CITY (AP)—Gov. James T. Blair doesn't send someone else to do his work.

Last night when other state officials gave the House Appropriations Committee the idea that perhaps the governor was a little too ambitious in figuring anticipated revenues for the coming fiscal year, Blair heard about it.

H hurried to the night committee session and defended his predictions of tax collections.

"I think we can collect \$10 million more in sales tax with your help," he told the committee and "I'll take full responsibility for the estimated revenue next year."

It was all brought on because Revenue Director Milton Carpenter, whom Blair appointed, had predicted revenues would be less than the governor was counting on for the coming year. Carpenter said he didn't think he supplied the governor with the revenue predictions Blair used in his budget.

Newton Atterbury, state comptroller and budget director, said he got the figures for the budget from the governor, assuming they had been supplied originally by Carpenter.

The governor figured the sales tax would produce over \$107 million during the next year, but Carpenter wouldn't go that far. He said the total for this fiscal year, ending June 30, probably would reach \$101,500,000 but he wouldn't estimate for the next fiscal year.

The governor heard about it at dinner and decided it was time he stepped in.

"You've got to be tough," he said, "in a business as big as the government."

### End of the Trail

**HELD IN KIDNAPING**—Carl Edward Burton, accused of kidnaping a Missouri state policeman, is led down steps of the city hall at Paducah, Ky., after being questioned and fingerprinted. Burton turned himself in at the Paducah police station. (NEA Telephoto)

### Over Corn Fund Allocation

## Argument in Cooper County

COLUMBIA (AP)—Cooper County feels it did not get a fair shake on allocation of funds for the corn phase of the soil bank and protested yesterday to the Missouri Agricultural Stabilization and Conservation Committee here.

The protest was a two-pronged affair, with the Cooper County ASC contending that it did not believe each county had an opportunity to share equally in the corn program and Cooper County Republicans urging H. K. Wangelin, state Republican chairman, to work for the removal of two of three state ASC members.

The dispute arose when the sign-up program for corn soil bank funds threatened to swamp funds

on Jan. 20 after a seven day period of instructions from Washington.

During that time, 184 Cooper County farmers applied for \$204,393.68 in corn bank soil funds. Two days after the signups were halted, an additional 307 Cooper County farmers asked for a \$300,000 allotment.

The state committee, with over \$15 million of the states \$17 million under contract and with requests on file for a total exceeding \$23 million, decided that all signed contracts must be honored.

The remaining sum of approximately \$1,500,000 was apportioned among the counties which had not used up their allotments.

On this basis, Cooper County was allocated \$246,646 including some \$43,000 to be apportioned among 307 late requests.

The Cooper protest is based chiefly on allocation of \$1,823,434 to Saline County, Missouri's banner corn county.

Gene Cunningham, soil bank chief at the ASC office here, said that Saline County ASC officials had done a good preliminary job prior to the soil bank signups and that funds allocated went to farmers who had signed contracts. Saline received no extra allocation when unplugged state funds were distributed among counties.

Saline County last year had \$1,109,795 income from the corn soil

bank, while Cooper had \$365,574. Cooper County Republicans yesterday asked Wangelin to work for removal of two of the state ASC members. Wangelin said in St. Louis that he does not intend to ask for any investigation because it isn't within his province to do so and "and complaints that are made would have to be handled by the department of agriculture."

Cunningham said today that the Department of Agriculture has been informed in detail of the Missouri plan for the distribution of soil bank funds on a first come, first serve basis. Most states followed the same procedure, Washington authorities told state ASC officials.

During 1957

## Pleasure Travelers Spend Record Amount in Missouri

A record-smashing \$327,700,000 was spent by pleasure travelers in Missouri in 1957 by more than 12,000,000 visitors, the Missouri Division of Resources and Development announced today.

The survey just completed by the Division's research section broke all existing records for Missouri vacation expenditure, according to James D. Idol, director.

In 1956, the estimate was \$303,500,000 and, in 1955, \$275,000,000.

At the same time, recreation officials of the division held bright hope for another record-breaking year in 1958, pointing to such new attractions as Table Rock Lake and subsequent changes in that area as well as more and better

planning, accommodations, etc., throughout the state.

A new survey was taken of the motels and resorts in Missouri and the above estimates were based on returns from a questionnaire sent to them.

Richard O'Brien, research analyst for the Division, said a total of 15 per cent answering the first questionnaire estimated their total receipts were \$3,701,306 in 1956 and \$3,969,851 in 1957—a 7.11 per cent increase. For all the motels, it meant a growth of from \$35,865,000 to \$38,467,000.

The answering motels estimated 786,658 guests in 1957, compared to 742,746 guests a year ago—a 5.9 per cent increase. Overall, it meant an increase from 6,784,000 to 7,185,000 guests.

The survey did not include hotels.

O'Brien said 10,000,000 were estimated to have visited Missouri in 1955 and a "conservative estimate for 1957 is 12,500,000."

He also pointed out that the average couple spent \$5.41 to spend one night in a motel—accommodations in the state are so varied that they range from \$2 to \$25 per night per couple.

It was estimated from the survey that nearly 20,000 people are immediately dependent on the motel and resort business, with 150,000 to 200,000 involved in travel trade of some type.

Missouri continued its popularity as a family vacation state, too, during 1957. More than 50 per cent of those visiting Missouri were families.

Other agencies involved in the tourist trade had already reported record figures. The Missouri State Park Board announced earlier that a record 3,001,977 visited state parks during 1957 and the Missouri Conservation Commission said a record near 700,000 purchased fishing licenses and trout tags last year.

## Novel of Deep South by Mrs. Van Arsdale

"Faith Undaunted" is the title of a novel by Pearl Martin Van Arsdale, widow of the late Samuel H. Van Arsdale, who several years ago operated what is now the St. Francis Hotel in Sedalia.

It is a story of the reconstruction period in the deep south and vividly recalls events of ante and post-bellum days through what is described as an interesting narrative of events of that time following the civil war.

The publication date for the book by Comet Press Books was Monday, Feb. 3.

This saga of a southern dynasty and a bygone way of life traces the history of the De Lassus family through several generations. When the carnage and depredations of the Civil War break like an angry wave over the lives of Maurice De Lassus, his wife, Dona Mariea, their two daughters, Marie and Madga, and their only son, Don Carlos, the plantation all but founders.

But out of the charred embers of death and destruction, the spirit of the De Lassus clan rises and, during the reconstruction period, Maurice De Lassus and his son rebuild the family fortune and become the rulers of a vast lumber kingdom.

But out of the charred embers of death and destruction, the spirit of the De Lassus clan rises and, during the reconstruction period, Maurice De Lassus and his son rebuild the family fortune and become the rulers of a vast lumber kingdom.

Pearl Martin Van Arsdale was born near Marshall. At the age of 14 she entered the Central Female College at Lexington, Mo., where she specialized in music. She married in 1894 Samuel H. Van Arsdale, and settled in Arrow Rock, where she taught music, owned and operated a dressmaking and millinery establishment, and was the organist for the Methodist Church.

For a period of many years, she and her husband owned and operated a chain of hotels in Missouri and Oklahoma. They retired from active business life some years ago. Mrs. Van Arsdale now makes her home in Sikeston, Mo., and visits part of each winter in Palm Springs and Hollywood, Calif.

Mr. Van Arsdale for many years was owner of the Ruff hotel (now Viking hotel) in Marshall. He also was owner of a most unusual and famous dog, Jim, a Llewellyn setter, possessed of occult powers and extra sensory perceptions. A wonder dog that baffled scientists and laymen alike.

Mrs. Van Arsdale dedicated "Faith Undaunted" to the memory of her husband, Samuel H. Van Arsdale.

Mrs. Van Arsdale has lived a full and energetic life and finds herself, even in the early eighties, brimming with creative activity. She enjoys painting as well as reading.

Mrs. Van Arsdale is the daughter of Gervas P. Martin, early day pioneer of Arrow Rock.

## Subcommittee Has Argument In FCC Case

WASHINGTON (AP)—Dissension within a House subcommittee left in doubt today the future course of its hearings on allegations of improper conduct against five members of the Federal Communications Commission.

Several of the FCC commissioners, denying any misconduct or impropriety, asked for more specific charges.

The investigation involves allegations by the subcommittee staff that five of the FCC's seven members improperly accepted favors from the broadcasting industry they are charged with regulating.

Several subcommittee members supported the protesting commissioners in a hearing marked by wrangling over procedure. One member, Rep. Moss (D-Calif.), described the argument as almost a "filibuster."

Focus of the wrangling was the manner in which subcommittee counsel Bernard Schwartz questioned FCC Chairman John C. Doerfer.

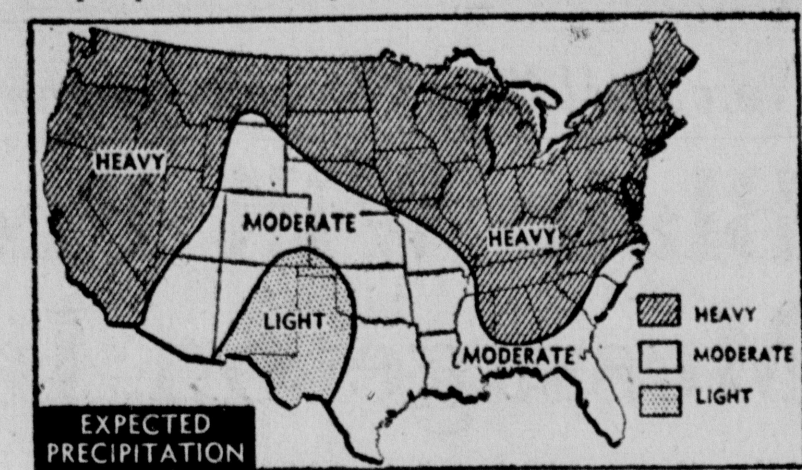

At the end of the day, Rep. Moulder (D-Mo), subcommittee chairman, told reporters the subcommittee would meet for three days next week, beginning Monday, with the FCC still under inquiry.

Before that, however, the subcommittee will hold a closed-door session Friday. Moulder said he assumed it would go into the question of specific charges.

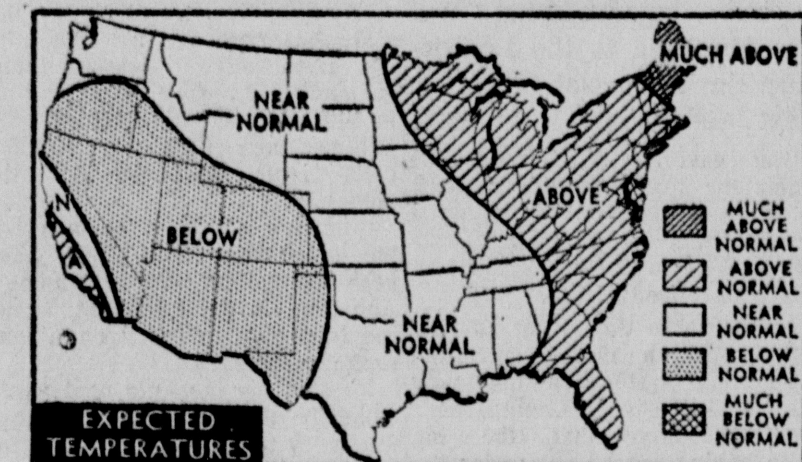

In letters made public by the investigating group, all the commissioners acknowledged receiving promotional gadgets, food gifts and expenses to industry gatherings. But each denied misconduct or receipt of improper favors from the broadcasting industry.

## Wet's Word for February

The weather maps, below, give you the U. S. Weather Bureau's long-range forecast for February. It is not a specific forecast in the usual sense, but an ESTIMATE of average temperatures and precipitation for the period.

Precipitation during February is going to be heavy over most of the nation. Near-normal amount is expected in Gulf states. One area to experience subnormal moisture pokes upward from the Gulf into the Southern Plains states.

Temperatures above normal are expected over the northeastern and South Atlantic states during February. Below-normal temperatures are seen for the southwest, with exception of an above-normal band along the west coast. For the rest of the nation, near-normal readings.

## True Effect Awaits Test

### Twin Pacts on Inter-Union Strife Adopted by AFL-CIO

MIAMI BEACH, Fla. (AP)—Labor leaders proudly pointed today to a twin set of rules aimed at curbing interunion strife and costly make-work practices on construction jobs.

It remains to be seen how well the rules will be enforced on local construction projects. In the past, many local unions have acted pretty much on their own.

Employing contractors at least were hopeful the agreements, although lacking real enforcement powers, will help cut building costs.

The twin pacts were announced yesterday. AFL-CIO leaders are assembled here for their winter meeting.

One pact is aimed at long-standing job rights feuds between craft and industrial (production worker) unions. It assigns new building construction to craft unions; Any disputes are to be worked out among the union leaders.

The other agreement — announced by contractors and the AFL-CIO building trades, with precise language still to be agreed upon — would bar work slowdowns, forced overtime, unneeded standby crews, and other make-work or "featherbedding" practices. Work stoppages while grievances are being processed are prohibited.

Earlier, a spokesman for the labor chiefs gave out names of Republican U.S. senators they expect to oppose for re-election.

James L. McDewitt, director of the Committee on Political Education, the AFL-CIO's political branch, said political endorsements are to be made formally this spring, but they could not foretell what they would be.

McDewitt said labor likely will oppose Senate Republican Leader Knowland's bid to become governor of California.

He predicted AFL-CIO opposition to re-election campaigns of Senators Goldwater (Ariz.), Purtell (Conn.), Payne (Maine), Beall (Md.), Potter (Mich.), Revercomb (W.Va.) and Barrett (Wyo.), all Republicans.

He said any opponents of Senators Byrd (D-Va.) and Holland (D-Fla.) likely would get AFL-CIO support.

He said labor will aid reelection drives of Democratic Senators Pastore (R-I), Kennedy (Mass),

## Airman Ready To Squeeze In Little Capsule

SAN ANTONIO, Tex. (AP)—A few days from now Donald Gerald Farrell, a six-foot airman from the Bronx, N.Y., will squeeze himself into a 3-by-5-foot capsule. And if all goes well, he'll stay inside for seven full days.

No sound will reach his ears. He will see very little. He'll be able to talk to persons outside the tiny cage, but he won't be able to hear them.

Experts at the Department of Space Medicine at Randolph Air Force Base here expect to harvest important data from Farrell's solitary confinement. They intend to subject him to all the forces of nature man is likely to find on voyages through space.

The seven days of the experiment would be sufficient time for a man to rocket to the moon and return, scientists noted.

A. C. Farrell is not a flier. He's an accounting clerk. He's a perfectly normal 23-year-old specimen of manhood and that, essentially, is why scientists picked him. No one has spent more than 24 hours in a space chamber so far.

While enclosed in his capsule, Farrell won't even be able to stretch his legs. Nor will he be able to take a bath.

"The boys probably will have a fire hose waiting for me to take care of that when I come out," Farrell said.

"I imagine boredom will be the biggest problem."

"He's a pack-a-day smoker, but does not expect this deprivation to bother him too much."

"I've always been interested in space travel," said Farrell, who may go into the chamber this Sunday. "I felt sure that someday we'd conquer space. I still think so and hope I can contribute something to it."

There are several reasons he was picked. He's young, strong (185 pounds) and healthy. He's been a guinea pig for other experiments. He's intelligent.

But above all, the spokesmen stress that his reactions are so normal and clear-cut. He shows no physical or mental eccentricities.

When he returns from an experiment he is sufficiently articulate to tell the doctors of reactions and feelings that scientific instruments still can't record.

That is the reason that Farrell was sealed off from newsmen shortly after the department announced the project.

Col. George R. Steinkamp, the doctor directly in charge of the test, doesn't want anything to interfere with Farrell psychologically.

Farrell attended the University of Alabama for one term, and plans to study aeronautical engineering.

The airman's good reactions to tests were demonstrated in experiments involving weightlessness.

Within Farrell's capsule, which never will leave the ground, doctors will treat an artificial environment which they calculate will be the minimum needed by space men.

Farrell will live under eight pounds per square inch of air pressure, half that on earth.

Carbon monoxide will be removed from his air and more oxygen supplied. Heat will be reduced.

Excess moisture from his lungs, sweat glands and other organs will be purified and made into drinking water. Other body waste will be absorbed by chemicals.

He'll get food through an air

## Knob Noster Sailor Has Been Promoted

Emory E. Bolton was promoted to chief storekeeper, USN, Jan. 22, while serving on the staff of Rear Admiral George C. Crawford, USN, Commandant, Sixth Naval District at the Naval Base, Charleston, S. C.

He is the son of Mr. and Mrs. W. S. Bolton, Knob Noster.

Before entering the Navy in 1948, Bolton graduated from Knob Noster High School.

## Plans to Up Unemployed Compensation

WASHINGTON (AP)—Sen. Kennedy (D-Mass) planned today to introduce legislation to increase unemployment compensation payments and extend coverage of the program.

Kennedy said the bill was designed to bring improvements which President Eisenhower has urged the states to make. He said not one state has done so.

Legislation is needed now, he said, because "unemployment has passed the four million mark and may well reach five million in the near future."

Sen. Gore (D-Tenn) has announced he is drafting a bill to set up a public works administration similar to that of the 1930s. It's needed to avert "a catastrophe to our economy," he said.

Under Gore's proposals, the federal government would provide half a billion dollars for state, county and local public works projects which would use workers on the jobless rolls. Federal funds would pay 90 per cent of the project's cost.

Kennedy's bill would set up federal requirements for many aspects of the unemployment compensation program now left to state determination. It would:

1. Provide for a benefit period of 39 weeks instead of the 26 weeks suggested to the states by Eisenhower. The period now varies greatly from state to state.
2. Fix maximum weekly benefit payments at two thirds of a state's average weekly wage. Benefits now average only a third of lost wages, Kennedy said.
3. Extend coverage to all firms employing one or more persons. Present law covers those with four or more employees.
4. Establish a re-insurance fund and contingency administration expense fund to help the states worst hit by unemployment.

Kennedy said the bill would not require any increase in the present 3 per cent unemployment tax maximum.

The measure is cosponsored by Senators Clark (D-Pa), McNamara (D-Mich), Mansfield (D-Mont), Murray (D-Mont), Proxmire (D-Wis), Douglas (D-Ill), Green (D-R.I.), Neuberger (D-Ore) and Humphrey (D-Minn).

### Former Evangelist Hailed By Critics for Fine Voice

NEW YORK (AP)—A former boy evangelist has conquered Broadway in his first role.

Lonnie Sattin, son of an itinerant Negro minister, is being hailed by critics for his surprise success in the musical, "Body Beautiful" in which he plays a professional boxer.

His dramatic, concert-trained voice steals the show.

"I came up singing," said Lonnie. "I can't remember a time when I didn't sing. You know how it is with a minister's boy. You get put in a choir as soon as you can toddle."

A bright future as an entertainer star of the first magnitude now appears certain for Lonnie. But he worked hard to get where he is, and the prospect of quick fame now doesn't overwhelm him.

Before undertaking any new venture, he prays long and earnestly. This is what he prays for: "I pray for happiness, not merely success. I ask God whether, if I am successful, I can handle it humbly and graciously. If not, I don't want it."

Sattin, one of nine children, was born in Jacksonville, Fla., but moved as a child to Philadelphia. He earned his way through Temple University by working as a barber, house painter, and door-to-door salesman.

His childhood interests were theology and law but for a brief time he thought of becoming a prizefighter. Then he worked out with Honeychile Johnson.

"He clipped me a good one on the chin," said Lonnie, "and I decided right then in favor of theology."

Following the example of his father, a Church of God pastor, Lonnie toured the seaboard from New York to North Carolina as an evangelist.

"In the ministry, I always sang," he recalled. "I found that music would often reach people's spirit in a way that words couldn't."

After winning a singing contest sponsored by the National Free-

Ann Katenkamp,  
Don Schumaker  
Exchange Vows

Miss Ann Emilie Katenkamp, daughter of Mr. and Mrs. Theodore W. Katenkamp, Baltimore, Md., and Donald William Schumaker, USN, son of Mr. and Mrs. William Schumaker, 713 West Tenth, were married January 25 at Emmanuel Lutheran Church in Baltimore. The Rev. George Looze and the Rev. Leslie F. Weber performed the ceremony.

The bride wore a white lace gown over satin, trimmed with pearls. The train was formed by a huge bow outlining the form-fitting waist. Her veil flowed from a Juliet cap encrusted with pearls. She carried a cascade of white roses and snapdragons.

Miss Charlotte Dreyer, maid of honor, wore a gown of rose satin with matching circle veil of tulle and pearls. Miss Joan Stall, Miss Ruth Kries and Miss Mary Ann Schumaker, USN, Long Beach, Calif., sister of the bridegroom, were bridesmaids. They wore gowns of aqua satin with matching headresses. The attendants carried old fashioned bouquets of variegated flowers.

Suzanne Mizell of Washington, D.C., was flower girl. Her dress was of rose satin.

Theodore W. Katenkamp Jr., brother of the bride, was best man. Ushers were Leonard Buckheit, Herbert McCullen, Edmund Rauchhaus, and Robert Vogel of Washington, D.C. Maynard Spedden was the soloist.

A reception for 500 guests was held at the Augsburg Lutheran Home of which the bride's father is superintendent.

Following the reception, the couple left for a visit with the bridegroom's parents enroute to California. The bridegroom will attend the Naval Aviation School in Burbank, Calif., to prepare for service as an aviation engineer.

Following the instruction period of four and a half months they will make their home at Patuxent Naval Base, Md. Schumaker graduated from Smith - Cotton High School with the class of 1951. He has served with the Navy for five years.

The bride graduated from State Teachers College in Maryland and prior to her marriage was teaching in Baltimore County.

Mrs. Donald W. Schumaker

Quisenberry Hustlers  
To Write Club History

Quisenberry Hustlers 4-H Club met Feb. 3 at the school with 41 in attendance.

It was agreed to write the club history and Glenda Rhoads, Sara Oswald and Roseann Mergen will write it. Glenda Rhoads reported on the play committee. The council report was given by Joyce Schupp. Clifford Chappell reported on buying and wearing of clothes.

Dorothy and Kay Richey joined the club. Refreshments were served by the Chappells and Richeys.

Grotzinger of Raymondville, Tex., came to Sedalia to attend the funeral of their brother, Everett Momborg. Mrs. Breidler returned home late Tuesday night but Mrs. Grotzinger remained for a few days visit with relatives and is staying at the home of her uncle and aunt, Mr. and Mrs. C. L. Elliott, 219 West Fifth.

Bridal Shower Honors  
Miss Stella Wilhite

Miss Stella Ann Wilhite was honored with a bridal shower Saturday afternoon, Feb. 1, by Mrs. Marvin Wilhite, Marshall Junction.

Several games were played during the afternoon with the winners presenting their gifts to the bride-to-be.

After Miss Wilhite opened the gifts, refreshments of wedding cake and punch were served. Mrs. Hurcie Canida, a great aunt of the bride-to-be, baked the wedding cake which was topped with a miniature bride and groom.

Those present were: Mrs. Robert Wilhite, Mrs. Cecil Saylor, Miss Lorrene Saylor, Mr. and Mrs. Otis Saylor, Mr. and Mrs. Mike Hutton and Martha Ann, Mrs. Herbert Hutton, Mrs. J. A. Canida, Miss Mary Jane Canida, Mrs. John Wilhite and Elaine, Mrs. Dick Thomas and daughters, Mrs. James M. Wilhite, Marvin Wilhite and family.

Those who were unable to attend and sent gifts were: Mrs. Jake Thomas, Mrs. Nelson Heinman, Mr. and Mrs. John Driskell, Mr. and Mrs. Lloyd Best, Mrs. Margaret Pope and Charles, Mrs. Jerome Younger and Mrs. York Finley.

Give Quotation  
In Answer to Roll

The Willing Workers 4-H Club met Monday evening, Feb. 3, at Blackwater 100 School.

The meeting was called to order by the president, Dickie Best. Roll call was answered by a favorite quotation of Abraham Lincoln. The club voted to give a donation of \$2 to the IFFIE Club. The president appointed a committee for 4-H window display week of Mrs. Nathan Wright, Judy Marshall, Linda Sue Wilhite and Rodger Kurtz.

Kirby Thomas, Bobby Treece and Rodger Kurtz presented the program for the evening, each giving a talk on health.

## Lions Club Heard Talk On Machines

The Sedalia Lions Club at its Monday meeting Wednesday heard a talk on the "Past, Present and Future Business Machines" as given by Charles Wendt of the Burroughs Adding Machine Co.

Wendt, past president of the Sedalia Jaycees and the winner of the Jaycees' Merchandise Mart "Super Salesman" award, told of the early development of the business machines. His talk pointed out the theme of how and when the first machines were made and of the development through the years. He also told of what can be expected in future years in the business machine age.

Wendt told of one of the latest developments in machines, one of the 12 machines being installed in a Kansas City bank which is entirely automatic. This machine, he explained, automatically picks up a bank statement, records the balance, deposit and balance.

He also gave descriptions of other machines in the making at the present time.

E. B. Smith, general chairman of the 20th Anniversary celebration of the club, which will be next Wednesday night, gave a report on the arrangements progress. Smith said reservations must be made as quickly as possible to prepare for the banquet at the Smith-Cotton High School cafeteria.

Dudley Sims, Charleston, W. Va., first International Vice-President, will be the principal speaker for the meeting. Gov. James T. Blair will be an honor guest and will welcome the International officer and Mrs. Sims to Missouri.

It is hoped by the committee that, with reservations from other Lions clubs in the state, the crowd will number over 300. Although weather conditions the past couple of weeks have delayed decisions of some to make reservations, A. W. Haller and James Van Wagner, Jr., in charge of that portion of the celebration, expect to hear from letters mailed to the various clubs the past few days.

Jack Faber, executive manager of the Sedalia Chamber of Commerce, was a guest at the meeting.

A. B. Warren, president, presided.

## ANPA Asks More Access To Records

WASHINGTON (AP) — The American Newspaper Publishers Assn. today called for congressional action "to preserve for the people their right to know what their public servants are doing."

The ANPA endorsed proposed legislation that would prevent government officials from using the language of a 1789 law dealing with the handling of records to give them the blanket right to withhold information to which the public is entitled.

The ANPA views were contained in a statement by Col. J. Hale Steinman for presentation to the House Government Information subcommittee headed by Rep. Moss (D-Calif.). Steinman is publisher of the Lancaster (Pa.) Intelligence-Journal and New Era, and chairman of the ANPA Federal Laws Committee.

Similar views were expressed in prepared testimony by James S. Pope of Louisville, Ky., representing the Southern Newspaper Publishers Assn., and by Clark Mollenhoff of Washington, speaking for the professional journalistic fraternity, Sigma Delta Chi.

Pope, executive editor of the Courier Journal and Louisville Times, said people in a democracy must have access to information so they can govern themselves properly. He said there should be more "top public," and less top secret, government information.

Mollenhoff, Washington correspondent for Cowles publications, said Congress should "stop being a third-rate division of government and insist on the right to write the laws and have them properly administered."

Steinman said government heads have distorted the intent of a law passed in the administration of George Washington and designed as a "housekeeping" law concerning the keeping of records and establishment of a filing system.

He said officials use the law in absence of specific statutes as authority for their decisions on what they will make available to the public.

## To Direct Search For Policy on Space

WASHINGTON (AP) — Democratic Leader Lyndon B. Johnson of Texas appears likely to head a special committee's search for a national policy on efforts to control outer space.

Johnson was ready to push through the Senate speedily a resolution to set up a 13-member committee. It would be charged with producing by June 1 or shortly thereafter a comprehensive plan to supervise U.S. civilian and military attempts to reach the stars.

Johnson's proposal had the backing of Sen. Knowland (Calif.), the Senate Republican leader.

## OBITUARIES

### Roy N. Jenkins

Roy N. Jenkins, 67, of 1316 South Sneed, died at 7:30 p. m. Wednesday at his home.

Mr. Jenkins was a son of James M. and Katherine Norman Jenkins and was born in Johnson County Oct. 9, 1890. He was a descendant of the late Hiram Jenkins, one of three of the first settlers in Pettis County.

On June 4, 1910, he was married to Miss Ferol Guinn in Sedalia. He was for a period of 45 years employed by the Missouri Pacific and was a welder and boiler-maker at the company shops here.

Surviving are: his wife, Mrs. Ferol Jenkins, of the home; two daughters, Mrs. Jacquetta Prowell, 1314 South Sneed, and Mrs. Marva Lee Helford, Dallas, Tex.; five grandchildren, Susan Prowell, student in the Texas Women's College at Denton, Nancy, of the home, Ann, James and Thomas Ray Helford; and a sister, Mrs. Susan Lutz, Dallas, Tex.

The body was taken to the McLaughlin Funeral Chapel where services will be at 2 p. m. Saturday.

Burial will be in Crown Hill Cemetery.

### James E. Rhine

James E. Rhine, 80, died at 6 a. m. Wednesday at his farm home on Route 2, Hughesville.

Mr. Rhine spent the greater part of his life farming in Pettis and Johnson Counties and had lived on the farm near Hughesville the past 10 years.

He was born March 2, 1877, son of the late James and Fannie Greer Rhine and was married to Miss Nellie Pippin in Sedalia in 1908.

Surviving are two children, Elmer Rhine, Hughesville, and Carl Rhine, Collinsworth, N. J., and three grandsons; a brother, D. G. Rhine, Gravois Mill, and a sister, Mrs. Pearl Teufel, 414 East Fifth, Sedalia.

He was a member of the County Line Baptist Church. The body was taken to the Parker-Moore Funeral Home, LaMonte, where funeral services will be held at 2 p. m. Friday the Rev. C. E. Hawn, Warrensburg, to officiate.

The Rev. and Mrs. Leon Parsons will sing "The Old Rugged Cross" and "Beautiful Garden of Prayer."

Pallbearers will be Charley Pippin, Glen Breckinridge, Jerry Conaway, Victor Gill, J. B. Greer and Gordon Greer.

Burial will be in LaMonte Cemetery.

**William Louis Martschinsky**  
William Louis Martschinsky, 82, died at his home in Versailles at 9:30 p. m. Tuesday, Feb. 4.

He was born July 17, 1875, at Hermann, Mo., and on July 6, 1915, he was married to Miss Carrie Hedrick, who survives at the home.

He is also survived by two sons, Raymond Martschinsky, Stephenville, Tex.; and Tom Martschinsky, four daughters, Mrs. Margaret Comstock, and Dorothy Poole, both of Versailles, Thelma Miller, St. Louis, Mildred Jenkins, Decatur, Ill.; 20 grandchildren and three great grandchildren.

Funeral services will be held at 2 p. m. Friday at the Kidwell Funeral Home, Versailles.

Burial will be in the Versailles Cemetery.

The body is at the Kidwell Funeral Home.

**Arthur G. Thomas Services**  
Funeral services for Arthur G. Thomas, 63, Ford dealer and owner of the A. G. Thomas Tractor and Implement Co., Marshall, who took his life Wednesday morning at his garage there by hanging, will be at 1:30 p. m. Friday at the Marshall Christian Church.

The Rev. Herbert I. Duncan, Kansas City, will officiate and assisting will be the Rev. W. I. Ferguson, Marshall.

Pallbearers will be Francis Buie, Claude Edwards, J. W. Adams, Uel McKinney, Lampkin James and Wayne Elsea.

Mr. Thomas was a member of several Masonic bodies.

Surviving him are: his wife, Mrs. Alva Thomas, of the home; a daughter, Mrs. Patricia Berlin, St. Louis; and two brothers and three sisters, O. W. Thomas, Carrollton, Shelton Thomas, Kansas City, Mrs. Oscar Hare, Miami, Mrs. Norvell Stonner, Miami, and Mrs. Lester Harris, McAlester, Okla.

The body will be taken from the Campbell-Lewis Funeral Home, Marshall, to the church to remain until after services.

Burial will be in Lamine Cemetery, Cooper County.

**Jesse A. Wheeler Rites**

Funeral services for Jesse A. Wheeler, Beaman, who died Tuesday morning at the Sedalia Rest Home, will be at 11 a. m. Saturday at the aylor Chapel Methodist Church, the pastor the Rev. J. E. Gillum, to officiate.

Pallbearers will be Vincent Banks, John Campbell, John Scroggins, Richard Hogan, Henry Beaver and Silas Rice.

The body at the Alexander Funeral Home will remain there until time for services.

Burial will be at Beaman.

## Takes Ice Cream

WASHINGTON (AP) — Two shotgun-wielding men barged into a dairy products shop last night and grabbed \$20 from the cash drawer, then they forced another customer, a 12-year-old boy, to hand over his possessions—two pins of ice cream and 34 cents.

## Sedalia Bar Association Fetes Judges

The 11 members of the Missouri Supreme Court, representatives from Whiteman AFB and local guests were present at the annual Sedalia Bar Association banquet at the Old Missouri Homestead Monday night.

Heading the list of guests from the Supreme Court was Chief Justice S. P. Dalton. Accompanying him were Justices Westhues, Henry I. Eager, C. A. Leedy, Jr., Clem F. Storchman, Paul Van Osdel, Lawrence Holman, Walter H. Bohling, Paul W. Barrett, Alden Stockard and Cullen Coil.

Local guests were the three judges of the Pettis County Court, Frank Monroe, E. L. Birdsong and C. M. Purchase; Fred M. Hulse, general chairman of the Missouri Bar Administration; Circuit Clerk Bryan Howe; and Roy Snyder, circuit court reporter. Guests from Whiteman AFB included Wing Commander Col. Harold E. Humfeld and three members of the Base Judge Advocate General's Office, Capt. Tom Castleman, Lt. Jerry Klein and Lt. Marvin Suit.

The banquet began at 8 p. m., followed by the introduction of Attorney Frank Hayes by Attorney Jack Steine, president of the Sedalia Bar Association. Hayes then introduced the guests from the Supreme Court and local guests of the association. Hayes acknowledged the high standards maintained by the Supreme Court, and commented upon the activities carried out through the office headed by Hulse, on behalf of the Missouri Bar Administration.

Following the introductions, Attorneys Don Lamm and Henry Salveter made a few informal remarks to welcome the Supreme Court members. Judge Leedy expressed appreciation on behalf of the Supreme Court group for the invitation extended to attend the banquet.

## New Violence In New York City Schools

NEW YORK (AP) — Violence flared anew in the city school system yesterday, with one school, boy monitor being beaten and another stabbed. The assaults occurred in Manhattan and the Bronx.

The outbreaks followed by a day a plan by Mayor Robert F. Wagner and the City Board of Education to curb crime in the city's nearly 900 public schools. In recent weeks a rash of rapes, hoodlums, assaults and knifings has led to posting of policemen at 41 public schools. Both Negroes and whites have been involved.

Although only a small percentage of the city's million pupils have been involved, the wave of lawlessness has touched off a continuing dispute between the Board of Education and the special Brooklyn grand jury probing crime in the schools.

As part of the plan to curb school crime, Dr. William Jansen, superintendent of schools, and Charles H. Silver, president of Board of Education, go to the state capital at Albany today to seek more state aid for education here.

In major incidents, 16-year-old Frank Sloan, who is white, was beaten by three other students, all Negroes, in the lunchroom of the George Washington High School in Manhattan. Sloan, a student monitor, assertedly was attacked after directing three classmates to pick up paper they had thrown on the floor, and also barring them from the girls' section of the cafeteria.

Sloan was taken to a hospital suffering from a brain concussion.

Two of his alleged assailants, both 15, were booked on juvenile delinquency charges. The third, George Addison, 16, was held on a charge of felonious assault.

Earlier, a 15-year-old monitor at Henry Hudson Junior High School in the Bronx was knifed at the entrance of the school building. Phillip Romano, who is white, was stationed at the school entrance to keep students from entering before the opening bell. Five minutes before the bell, Romano barred a 14-year-old boy, a Negro, from entering. Romano was stabbed in the stomach and an operation was necessary. His condition was described as satisfactory. The 14-year-old boy was arranged on a juvenile delinquency charge and paroled in the custody of his mother.

## Cardinal Games Heard Again on KDRO Radio

For the 14th consecutive year the St. Louis Cardinal baseball games will be heard in this area over KDRO radio.

It was announced yesterday by Herb Brandes and Jimmy Glenn, co-owners of KDRO Radio, that plans have been completed to broadcast once again all of the Cardinal home and away games during the 1958 season. Spring exhibition games will be aired beginning in March. The voice of Harry Caray will again be heard with the play by play description.

KDRO Radio was one of the originating seven stations when the Cardinals formed a radio network. The games are now heard over a network of better than 100 stations.

### Ike Cancelled Morning Prayer

WASHINGTON (AP) — President Eisenhower's cold caused cancellation of one of his engagements today. But two other appointments remained on his schedule.

They are a meeting of the National Security Council and a meeting with a delegation from the American College of Surgeons.

The President, who has been bothered by a sore throat and hoarseness, cancelled plans to attend a breakfast prayer meeting sponsored by the International Council for Christian Leadership. He had agreed to join a group of senators and House members at the early morning session, as he has in other years.

He decided against going to the meeting because of his cold. White House press secretary James C. Hagerty said, Hagerty added in reply to questions that it was a precautionary decision. He said the President's cold was no worse.

### County Schools

(Continued From Page One)  
clerk of the Liberty school board, and Mrs. Alfred Schreiner, clerk of the Reorganized XII school board.

These chairmen worked with their groups to show them how to fill out various forms needed in their annual request for funds, and Scotten and Evans were on hand to answer any additional questions.

Dates were set for each school board representative to return to Sedalia and present their requests to the county supervisor. After the requests are all in, Scotten said, they will be consolidated and forwarded by his office for approval.

About 50 representatives attended the meeting.

### Police Reports

Donald R. Anderson, 600 West Third, reported to the police his 1956 Chevrolet convertible was stolen from his garage sometime Wednesday night. It was found parked at the Jockey Club by the police about 1:15 a. m. Thursday.

The car was believed to have been taken by two young men who were seen driving such a car about midnight by the police. It was reported to the police as stolen about 12:40 a. m.

A bicycle was found by Abe Williams, 1419 South Washington, in his front yard Wednesday evening and was taken to police headquarters.

McCown Brothers reported the loss of an automobile dealer's license tag No. D-3565, Wednesday afternoon.

Clarence Steele, 1009 South Massachusetts, found an automobile license D-2937 and turned it over to the police Wednesday evening.

Nine cans of oil were found on a rack in front of the Hamilton Service Station, Third and Osage, at 3:21 a. m. and were taken to police headquarters.

**Police Court**  
Curtis M. Chambers, 414 North Montauque, charged with blocking a sidewalk in the 400 block on North Montauque, forfeited a \$2 cash bond.

R. H. Albers, Route 1, Sedalia, charged with parking a truck in a residential area, Fifth and Washington, between sunset and sunrise, forfeited a \$2 cash bond.

Six overtime parkers failed to appear in police court and their \$1 cash bonds were ordered forfeited. There were 25 others who paid the 25-cent fee.

Curtis George Sennett, 40, of 413 North Hurley, charged with driving a car while under the influence of intoxicating beverage, pleaded guilty to Judge Willard Morris in police court and was fined \$100.

It was his fifth arrest since Jan. 9, 1953, for driving while under the influence of intoxicating beverage. He was given an alcohol test at his own request on the last charge.

Mitchell B. Davis, 250 East Jackson, charged with taking 35 cents worth of lunch meat at Bing's No. 2 Market, pleaded innocent to petit larceny but was fined \$25 by Judge Morris.

DeLane F. LaFollette, Knob Noster, charged with driving a car while under the influence of intoxicating beverage failed to appear in police court and his cash bond of \$75 was ordered forfeited by Judge Willard Morris.

**Circuit Court**  
A suit by the Southwestern Bell Telephone Co. for damages against Leon Swope was dismissed Wednesday after a stipulation for dismissal was signed by both parties and filed.

D. D. Mason filed a petition for damages in circuit court Thursday against Hubert Chaney for a total of \$1,100. The damages, Mason claims, are the result of a truck-bumper accident three miles north of Bunker Hill in December, 1955.

In the accident, a school bus driven by Mason hit a parked truck owned by Chaney. In the petition, Mason claims the truck was parked across Highway 72 in a negligent manner, as there was no warning signal placed on either side of the truck.

He claims \$1,000 damages to his school bus, and \$100 for rental of another bus while his was being repaired.

Paper made from papyrus stalks was invented some 4,000 years before the Christian era.

# Post Office Makes Breakthrough Toward Later Mechanization

The Post Office Department, handling more mail than ever with fewer work hours in most operations, made a "breakthrough" toward "major mechanization" in 1957 to improve service for users of the mails, Postmaster General Arthur E. Summerfield reported today.

In a new annual report for the 1957 "fiscal" year, ended June 30, 1957, Mr. Summerfield disclosed:

1. The top postal objectives today are: A self-sustaining postal service without enormous deficits, net-day delivery of mail between any two cities in the Nation; and a happy, properly-compensated employee force working under modern conditions.

To help achieve next-day delivery, the department is developing new coordinated rail and highway service replacing discontinued passenger train service.

2. "The first breakthrough in major mechanization" of post offices include machines already installed for sorting parcel post (Baltimore), for sorting letters (Silver Spring, Md.) and automatically conveying letters through post office work floors (Detroit).

3. In addition, the Department in '57 laid the groundwork for more efficient machines to come, to handle a "great flood of mail" in a few years, including

(a) Prototype models of automatic machines to "cull" mail (separate "raw" mail, such as small parcels from letters), "face" mail (place it in the proper position for rapid cancellation) and cancel it.

(b) Equipment to replace the human eye in some mail-sorting steps and actually "read" addresses. (During fiscal 1957 this machine read typewritten or printed addresses to 12 destinations.)

(c) An experimental automatic letter-sorting machine to handle quantities of mail. (Testing of this National Bureau of Standards development is underway.)

4. A real start was made toward mechanization of the letter carrier, featuring fully-mechanized city delivery service under test in four cities. This test uses mailsters, 3-wheel, 4-ton vehicles, as well as 3-ton right-hand drive, stand trucks, in addition to bicycles and carrier carts.

Many foot-carrier routes were converted to vehicle routes in 19 cities, and plans are underway to mechanize delivery in many other cities. Of 27,000 residential letter carrier routes on which their use is practical, more than 2,000 have mailsters.

5. In 1957, city delivery routes increased by 1,626 providing service to 86,089 additional business firms and 1,274,388 additional families. City delivery service was established in 149 communities which previously had no delivery service, bringing the total of such delivery routes to 85,434.

6. There was a continuing demand in 1957 for extension of rural service. The mileage traveled by all mail carriers on their daily routes increased by 4,852 miles in 1957 to a total of 1,579,045 miles a day.

7. Under commercial leasing program, private capital construction started in fiscal 1957 on 544 new postal buildings, containing 2 million square feet of floor space, worth more than \$20 million — the largest number of new leased building starts in any year.

8. In personnel, 41,000 postal employees took supervisory promotional exams in 1957; thousands of long term temporary employees were given career status; and the first comprehensive body of postal compensation regulations was published in the Postal Manual.

Also, many other improvements were made in providing increased opportunities for personnel in the fields of training, work improvement, supervisory practices and promotion.

9. Accounting and financial changes were saving millions each year in bookkeeping work, and providing better financial information. Postmasters were relieved of more than two-thirds of their bookkeeping by centralization and mechanization of 15 regional controller offices. Payroll procedures were streamlined, electronic data devices were installed and transportation accounting was improved.

10. In financial controllership activities, major reorganization, development, and installation of modern accounting techniques and procedures were virtually completed.

11. A 7-member Citizens' Stamp Advisory Committee of three nationally known philatelists, three outstanding art authorities and the Deputy Director of the USIA, was appointed to advise the department

on subject matter, design and production of the most appropriate U. S. stamps.

In 1957 the Department, with the cooperation of numerous railroads, Mr. Summerfield also noted, "realized substantial economies by effective use of the highways."

## Better Family Living

by  
**OPAL O'BRIANT**  
Pettis County Home Agent

### Dates Ahead

Friday, Feb. 7. 4-H Club Leaders Training meeting and Chain Store Banquet.

Tuesday, Feb. 11. Farm and Home Planning dinner and program, 7 p.m., Horace Mann School Cafeteria.

Friday, Feb. 14. 4-H Clothing leaders meeting, First Methodist Church, Fourth and Osage.

Monday, Feb. 17. Young Homemakers School Enrollment Test, 2 p.m., First Methodist Church.

Saturday, Feb. 22. 4-H project meeting, Buying and Wearing of Clothes.

### Young Homemakers School

The Young Homemakers School committee has made plans for the schools to be scheduled the last two weeks in February and during the month of March.

There will be an enrollment tea Monday, Feb. 17, 2 p.m., First Methodist Church, Fourth and Osage. Young homemakers under 35 years of age are invited to the tea where they will have an opportunity to enroll in one of the schools. The subject of the schools this year is "Home Decoration."

The schools will be set up where there are large enough groups. These schools are being sponsored by the County Home Economics Extension Club Council.

Each class will meet for five two-hour sessions. Baby sitters will be furnished by the extension clubs.

Those who cannot attend the enrollment tea may enroll in the school by sending their name and address to this office.

### Add Wheat Germ To Homemade Bread

Toasted wheat germ added to a homemade bread recipe makes the finished product even more delicious and adds nutritive value as well. Raw wheat germ should never be used for yeast breads because it has a tendency to prevent yeast action. The toasted wheat germ is available in grocery stores.

Usually one to four tablespoons of wheat germ can safely be added to each loaf of bread. Simply mix it in with the flour.

**Stitch Before Wearing**  
Just a few stitches that reinforce a new garment often pay dividends in making it wear longer and keep its good looks. What's more, they can save lengthy, difficult mending jobs later.

Check over women's and children's clothes before wearing. If they need reinforcing, the efficient time to do it is when they are new. Check seams, dangling threads, plaques, pocket corners, buttonholes, buttons and other fastenings.

### How Do Your Meals Measure Up in Vitamin C?

During the winter months most family meals are likely to be low in Vitamin C. A recent food consumption survey done by the USDA showed that one out of every four families was not receiving the recommended quantities of Vitamin C any week of the year.

You may be wondering why it is important to have Vitamin C. Well, first because it helps the body make better use of other food nutrients. If you have grapefruit or orange juice for breakfast along with your egg or whole grain cereal, your body can make better use of the iron in the egg yolk or cereal. Too, Vitamin C is needed to help hold body cells together. When it is lacking in the diet the deficiency may show up in any part of the body, in skin surface, teeth, bones, muscles and blood. One easily recognized danger signal, often due to the lack of Vitamin C, is spongy, swollen and bleeding gums. The cells of the tiny blood vessels in the gums get weak, break apart, and the gums bleed easily. Small blood vessels in other parts of the body may be weakened in the same way, and so may muscle, bone,

and teeth tissue. Stiffness, swelling of joints or bone weakness may result and wounds do not heal readily.

Many vague symptoms of ill health, such as restlessness and irritability in children and a run-down feeling in adults at this season of the year, are frequently attributed to a deficiency in Vitamin C.

Vitamin C is not stored in the body in any appreciable amounts, so it should be supplied on a day-to-day basis.

Throughout the year citrus fruits are our most reliable and usually the cheapest source of Vitamin C. Fresh, frozen or canned, the whole fruit or the juice, all are excellent sources. Other good sources at this season of the year are greens, such as raw or frozen spinach, broccoli, cabbage and brussels sprouts, and of course, tomatoes, either canned or in juice. Potatoes cooked in their skins are another source. They fit in with any meat dish and if you eat one or two potatoes every day you are likely to get a nice amount of Vitamin C from this one vegetable. If you serve rice, spaghetti, macaroni or dressing instead of the potatoes, you would be missing this.

### Employ New Teachers At Knob Noster

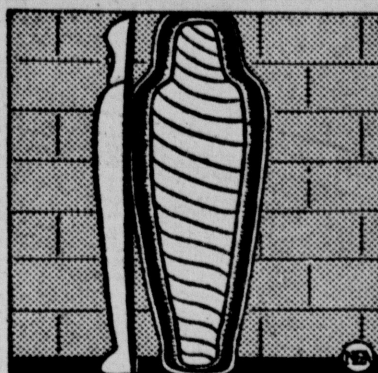

Mrs. Stuart Cleveland, Knob Noster, has been employed to teach English in the Knob Noster High School to fill the vacancy due to the resignation of Mrs. Harry Higgins, who has moved to Slater.

Mrs. David Bell, Dunksburg, will teach the first grade in the Knob Noster School to replace Mrs. George Lund, who resigned. Mrs. David Johnson will fill the vacancy created by the resignation of Mrs. Eva Lee Stonewall, for fourth grade teacher at Whitman AFB School.

More than one-seventh of the Indian population in the United States lives in New Mexico. There are about 50,000 in New Mexico.

## Matter of FACT

Wrappings of mummies dating back to 4,000 B.C. show that the Egyptian craftsmen were masters of making indigo dye fast in a fabric. There is abundant evidence that Egyptian artisans dyed silk, wool, linen and cotton with a variety of beautiful hues. They obtained their dyes from the coloring matter of herbs, roots, bark of trees, berries, seeds, nuts and the blood of shellfish.

## Rededication For Versailles Church Sun.

A rededication service at the First Christian Church in Versailles will take place Sunday morning, with the pastor, the Rev. J. L. Freeman, in the pulpit.

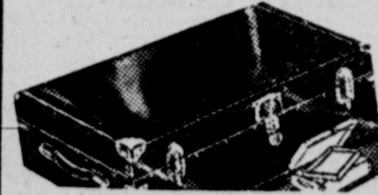

The service will mark the completion of a general remodeling and redecoration of the sanctuary; the installation of a new oak floor, new paneling on the old wainscote, a remodeling of the pulpit rostrum, and placing of entirely new oak pews, aisle rugs, communion altar rug and rostrum rug. The pews, rugs and new revised hymn books are the gift of the Reverend Freeman and Mrs. Freeman to the church which they have served more than ten years. They now are more than a third through their 11th year.

Prior to accepting the pastorate in Versailles, the Freemans served the Tipton Christian Church 20 years and, during their service there, a new church edifice was erected and furnished.

The service in the Versailles church will start at 10:50 o'clock Sunday morning and end at noon, after which a contributive dinner will be served buffet style, for the congregation, the guests of honor — the Freemans, and visitors from other churches and towns.

The work of redecoration, renovating and remodeling in the sanctuary and to some extent in the Sunday School annex, was done by members of the congregation, both men and women, who worked days and evenings for weeks, to accomplish the various tasks. During the remodeling period, Sunday services were held in the annex.

# The Maintenance Man

Some have called this month foul-faced February because weather-wise it can be black, white, wet or dry. Currently it has smiled farewell to January's protracted spell of snow, ice and frigid temperatures. Yet it cannot be assumed winter's woes have passed until this month has done likewise.

Perhaps none was more conscious of wheezy, sneezy, breezy, foggy, icy, snowy January than the street and highway maintenance men whose day and nightly vigil kept open the arteries of traffic. Crews and equipment during wintertime are held at the ready for all weather emergencies. Seldom are they accorded recognition for their arduous and chilly tasks so that school busses, patrolmen, and doctors and firemen may get to destinations.

Another phase of maintenance crew activity, both winter and summer, is the constant danger to them from moving traffic while they work. Two instances of this occurred in the Pettis county area when motorists collided with snow removal and cider-spreading highway equipment. In the LaMonte vicinity one state maintenance driver was seriously injured.

While these men of the road must bear some responsibility for alertness even while they work, the greater burden of it should be with the traveling motorist who certainly wouldn't get

where he intends to go without the help of the former.

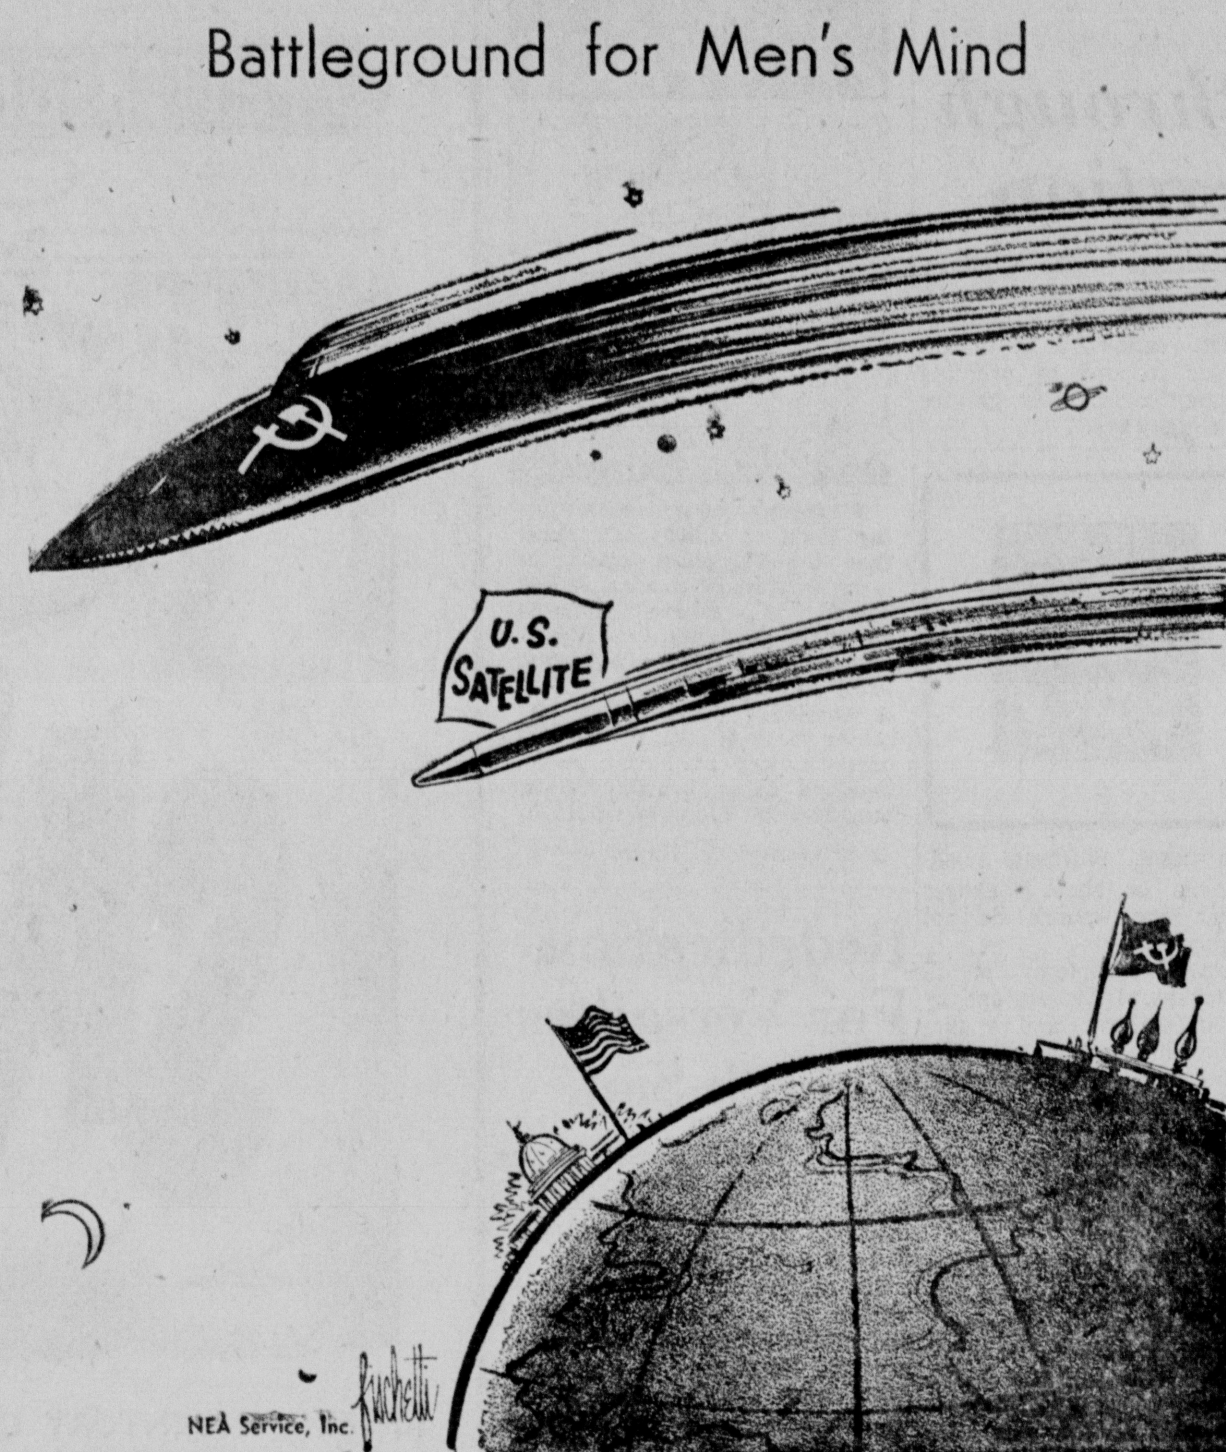

Before the winter season is over there may be some more ice and fog conditions when highway men and equipment will be out. An unexpected encounter with slow moving equipment must be anticipated as an elementary safety policy when it is quite evident road conditions call for automotive deceleration.

The highway maintenance worker should be given credit for activities on behalf of the driving security of the motorist—clearing the roads, cinderling the icy spots, staying on the job night and day until his task is done.

As a matter of self preservation the alert maintenance man is one who does not take for granted the deference which should be shown him by the motorists he is serving. While at work he must maintain a left guard against those careless drivers who charge the highways like catapults, snow, fog or rain notwithstanding.

In good weather or bad his warning signs are out, his flashing signals operating, his flares spotted or his flagmen at spacious distance for and aft.

May the tribe of highway maintenance men with safety complexes increase and become a symbol for emulation by the motorists who should slow down at all times in approaching and passing highway equipment.

NEA Service, Inc.

## The World Today

## Art Object, Big Income Can Save Taxes

By JAMES MARLOW  
Associated Press News Analyst  
WASHINGTON (AP) — One nice way to save a whopping chunk on your income tax is to have (A) a lot of income to start with and (B) some object of art, like an expensive painting.

The rest is simple. For example, take Mortimer Mistletoe, a fat cat with an income of a million dollars a year.

Like everyone else he's allowed to deduct up to 20 per cent of his taxable income for charitable contributions, provided he actually gave that much to charity. For Mortimer that 20 per cent deduction on a million-dollar income would be \$200,000.

But Mortimer's trouble was that he never gave \$200,000 a year to charity. In fact, he never managed to hand out more than 10 per cent—or \$100,000—of his one million that way.

He'd still like to find some way to deduct the maximum \$200,000 allowed him. Then he hits on an idea which the Internal Revenue Service has approved. It's an idea which already may be at work in some art museum you visit.

For instance: You may see a picture adorned with the name of some individual and the information that the picture is on loan from him to the museum.

This is what Mortimer does. He has some paintings worth a million dollars. He decides to let some public art gallery have the use of them for part of the year. Say that in his case it was a tenth of a year.

## Looking Backward ...

**TWENTY-FIVE YEARS AGO**  
Mild weather vanished in this area with a temperature drop to 2 below zero in a blizzard following a cold drizzly rain. Traffic was slowed on the highways and the Missouri Pacific abandoned operation of its buses.

—1918—  
A. E. Coyne, former Sedalia, a Missouri Pacific train dispatcher, died at Jefferson City after suffering an attack while at work there.

—1918—  
Silks, underwear and clothing comprised loot in burglary of the Wisdom and Brill general merchandise store at Lincoln. Some tobacco and candy was also taken with a small sum of money.

Dr. J. E. Mitchell was reappointed by the county court as county home and county jail physician.

**FORTY YEARS AGO**  
Cyrus Johns, son of Mr. and Mrs. W. M. Johns, a well known Sedalia, enlisted at Washington, D. C., in the Navy and was made a machinist's mate.

—1918—  
The age limit on men subject to poll tax was raised by the county court Wednesday from 50 to 60 years. It applies to all men over 21 and under 60 residing outside incorporated towns and cities.

—1918—  
Jacob Brandt was at Columbia for a visit with his son, Raymond Brandt, a student in the school of journalism at the University of Missouri.

—1918—  
T. O. Stanley, county engineer, and C. A. Thomas, superintendent of the Sedalia 12-Mile Road District, were in St. Louis at a convention of the American Road Builders Association.

It isn't a loan. He must deed the pictures to the gallery for a tenth of the year. He keeps them in his home for the other nine tenths.

But for deeding the pictures to the gallery for a tenth of a year he can knock a tenth of their worth off his income tax for that year. Since they're worth a million dollars, that would be \$100,000.

That \$100,000, added to the \$100,000 Mortimer is deducting for charitable contributions, gives him a total, permitted deduction of \$200,000, or 20 per cent of his million-dollar income.

What happens next year? He can repeat the dose, giving the gallery an added tenth ownership of his pictures, and so on year after year until he has taken off as tax deduction the one million

dollars the pictures were worth originally.

At the end of that time the museum gets full possession of the pictures. Mortimer can't take them home any more or knock anything more off his tax for deeding the pictures to the gallery.

The Internal Revenue Service doesn't give out information on how many rich people—with expensive paintings—are doing just this. But a number have done and are doing it.

Suppose, instead of doing things this way, Mortimer willed his paintings to the museum. He couldn't take a dime off his income tax for that, since he'd be in possession of the pictures until he died.

But, after he died and the museum got the pictures, the full value of them could be deducted from the tax on his estate.

## Your Child's Health

## Emotional Reasons May Be Behind Child's Overweight

By Edwin P. Jordan, M.D.

"We have a grandson just nine years old," writes Mrs. A. "He weighs around 108 pounds, which I am sure is much too much even for a boy whose bone structure is large. The doctor says that his glands are functioning all right, but there is obesity on one side of the family and the other is not fragile either. What do you think should be done?"

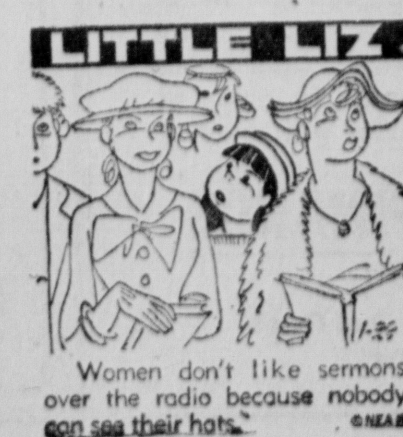

This question of overweight in youngsters is by no means unusual. In them, as in grownups, the carrying of excess fat is almost always simply a sign of eating too much. It is only rarely the result of some glandular disorder or other physical disorder. The family tendency may be more an imitation of eating habits than any glandular or other abnormality. The situation can be remedied as a rule by reducing the quantity of fat forming foods in the diet.

Why does an otherwise normal youngster eat too much? Apparently there is often an emotional reason.

In some youngsters it may be a symbol of independence or rebellion against authority. In some it may help the youngster to avoid physical competition with others, either in sports or socially; it may serve as a kind of excuse for avoiding undesired activity.

When obesity is severe the reasons may have to be discovered by the sympathetic physician or the psychiatrist so that the youngster will develop a real desire to lose excess poundage. Once a program of reducing is set up and agreed on it should be followed consistently.

Something should be said about the relative unimportance of physical exertion in a reducing regime. I am not arguing against exercise,

## Democrat Pick-ups

Odds and Ends  
By News Staff

Finding a new recipe for a sweet roll of some kind that sounded good, the woman decided she would make some and surprise her daughter who likes something like that with coffee. She made it and she never saw a dough so light and nice. She baked it and it turned out wonderful. She could hardly wait until her daughter came home from work to see it.

The daughter was delighted when she saw what her mother had made and had to have some right now with coffee. She took one bite and looked at her mother.

"Mom," she asked, "did this recipe call for sugar?"

"Yes, it did," replied the mother. "Well," said the daughter, "you forgot to put it in."

The mother picked up a piece and tasted. Sure enough she had left the sugar out and she was so disgusted with herself. Here she thought she had something extra nice, and it had to turn out like that. — H. L.

## Authority Or Meddling?

## Reorganization Plans For Military Need Scrutiny

By JOSEPH A. DEAR  
Of Our Washington Bureau

WASHINGTON — The plans for reorganizing the national military establishment that now are under consideration at very high levels in the Administration contemplate granting much more authority to the Chairman of the Joint Chiefs of Staff and to the Secretary of Defense.

Both propositions deserve close scrutiny by Congress. The Pentagon is imperfect. Ill advised reform could worsen the situation.

Real power already attaches to the Office of the Secretary. Louis Johnson, who boasted of our ability to contest with communism anywhere just before the attack on Korea, was able to cancel construction of a super aircraft carrier which Congress had authorized and the Navy wanted.

How much more power does the Defense Secretary need?

Civilian control over the services is essential, of course, but civilian meddling would be dangerous. If more power is conferred on the office of the Secretary, the temptation to meddle could become almost irresistible.

This danger is particularly acute now because it is widely believed that inter-service rivalry is retarding the defense effort. The excuse for conferring more power on the Secretary is that he needs to restore harmony. But a balance must be struck, and care must be taken lest the cure be more harmful than the disease.

The same can be said of the proposal to strengthen the authority of the Chairman of the Joint Chiefs of Staff. It has been hinted that the new plan would empower the Chairman to assign roles and missions to the services. Plainly put, that means the Chairman could alter the traditional structure of the military establishment. This is a job Congress might bet-

ter undertake itself. It would be delegating a good deal if it entrusted the task to one man.

Part and parcel of this reform is the additional suggestion that service chiefs on the Joint Chiefs be deprived of command authority. Thus if General Taylor, who now commands the Army while serving on the Joint Chiefs, were to continue on the Joint Chiefs under the reform, he would surrender his Army command.

The intent of the proposed change is to improve military planning. The Joint Chiefs of Staff is an overall planning body. Broadly speaking, its function is to coordinate the planning of the three services. A growing body of opinion holds that it is functioning imperfectly. The supposed reason is that its members must devote too much of their time to the services they head.

The main argument against granting great additional powers to the Chairman of the Joint Chiefs is that such a concentration of authority might actually weaken the nation militarily. The argument is familiar: An Army officer, who has spent all his adult days pondering Army problems, is unlikely to appreciate the problems of the Navy and Air Force. So if that Army type is put in charge of the show, his regime may work a disadvantage on the Air Force and Navy.

This is a toughie. And it won't be resolved by pointing to the experience of the Germans or any one else. (The German General Staff concept, which seems to be a favorite for comparative purposes, was exclusively Army. The German Navy was independent. So was the German Air Force. The Germans did attempt to establish a Joint Staff over the three services. It did not function well at all. In matters of this sort, our own national experience is probably the best guide.

## Ruth Millett Says

## Small Disloyalties Can Sap Strength From Marriage

Recent scientific studies show that one of the major reasons for job failure is disloyalty—disloyalty to one's firm, disloyalty to one's immediate superior, disloyalty to the head man.

Apparently there are a lot of people in the world who can identify themselves with a company or organization without feeling any loyalty to the firm that pays their salaries.

The same thing is true in many marriages. And undoubtedly disloyalty in marriage also accounts for many failures.

Not just the big disloyalty we label infidelity. But all the minor disloyalties that cause constant conflict between a husband and wife.

Some of these small disloyalties are:

Showing each other up to the worst advantage instead of the best before others.

Violating each other's confidences.

Talking to friends and relatives about each other's faults.

Not backing each other up when one or the other takes a stand regarding the children.

Not standing up for each other when criticism comes from an interfering relative or in-law.

Not being as loyal to the other's parents as to one's own.

Expecting the worst instead of the best from each other.

Washington Irving wrote under the pen name of Diederich Knickerbocker.

Carrying quarrels outside the privacy of the marriage.

These are the small, but important, disloyalties that cause friction and failure in marriage.

## Thinking It Over

By Robert L. Dieffenbacher, D.D.

Bravery is not always easy when we are alone. A little child backed by his parents is brave enough to face an ocean, but when he is alone he hesitates to get into a bath tub. The reasons may be different but the illustration still holds water.

We need the backing of God if we are going to be brave enough to battle the forces of temptation and evil which lurk within our minds. When these temptations are made glamorous by our fellowmen we find our personal bravery pretty weak.

There is no real bravery except in the fellowship of others whether the strength which comes from outside ourselves is real or imagined. When it is imagined our bravery is frequently of little avail.

The bravery of the soul backed by God will see us through many battles which we should otherwise have not a chance of winning.

## Guest Editorial

MILWAUKEE JOURNAL: U.S. Nose In Our Kitchen. The United States printing office, for 15 cents, will send you an illustrated, 53 page pamphlet on the "Development of Rapid Methods of Soaking and Cooking Dry Beans."

The booklet, says the printing office blurb, presents with the aid of 22 tables "the results of studies made on cooking dry beans in covered saucepans and cooking them in a pressure saucepan." The methods described, says the printing office, will save time.

Here, almost, is treason! It is basic to American culinary art and tradition that the preparation of the dry bean for consumption should never be rushed. Neither can a saucepan, ordinary or pressure, play a part in it.

Properly prepared beans must be soaked at least overnight. Properly cooked they are placed in a crock—tenderly layered with onions, salt pork, a touch of dry mustard, salt and pepper. Our own school holds with boiling them first, and adding some of the liquor to the crock. They are baked—as slowly as possible, as long as possible, with careful attention to their moisture content and without a cover the last hour or so to brown the top layer of pork.

Rapid methods of soaking and cooking dry beans, indeed! The government's got enough to do without sticking its nose into our kitchen.

## Plugging A Rathole

Everyone who wants to see the tax laws applied fairly and fully will be pleased that Congress has acted to plug a surprising gap in the income tax withholding system.

A story in the Cleveland Press awoke the lawmakers to the realization that some employers who deduct taxes from their workers' paychecks were actually pocketing the money instead of turning it over to the government. It is estimated that 400,000 employers owe the U.S. \$279 million in withholding levies and social security taxes collected but not paid over.

Under the bill approved by both houses and expected to be signed by the President, delinquent employers hereafter will be required to deposit taxes due in a special bank account payable to the Internal Revenue Service.

Obviously this is a flaw in the tax law that ought to have been discovered and corrected a long time ago. But, considering the sums of money involved, it seems right to say: Better late than never.

## Women Boss Half of US Post Offices

A recent check shows the Post Office Department has 15,751 lady postmasters, which is probably the largest number of women "branch managers" of any business type operation in the world. Postmaster General Arthur E. Summerfield noted today.

The 15,751 is close to half of 36,766 postmasterships. (There are about 37,000 post offices, but there are some normal vacancies caused by deaths, recent retirements, and so forth.)

"With our near 16,000 women postmasters representing close to half of our entire management staff, we believe it is fair to say the American Post Office Department, through the employment of large numbers of women postmasters, recognizes the management abilities of women perhaps more than any other private or governmental organization anywhere." Postmaster General Summerfield commented.

The Post Office Department region with the largest number of postmasters, as well as the largest number of lady postmasters, figures show, is Cincinnati, which includes Ohio, Kentucky and Indiana. The region has 1,836 lady postmasters of a total 3,912.

The second area, in terms of total postmasters as well as lady postmasters, is the Washington, D. C. Region, which comprises Maryland, West Virginia and Virginia, in addition to the District of Columbia. It has 1,671 women postmasters, out of 3,214.

Many unusual women are in postmaster ranks, and many women head unusual offices.

For example, a nun, Sister Regina Francis, is postmaster at Immaculata, in Chester County, Pa. She has served in that post more than 14 years, devoting full time to postmaster duties.

And Mrs. Francis R. Huseon of Tahuya, Wash., maintains an oyster operation as a sideline.

At San Quentin, Calif., where the well-known prison is located, a lady, Mrs. Valate T. Eliason, is acting postmaster.

Miss Virginia Siyuja is postmaster at Supai, Ariz., at the bottom of the Grand Canyon. Her office has to be serviced by mule-back.

Many women head large post offices.

For example, "million dollar" post offices (those with a million dollars annual receipts) include Hackensack, N. J., where Mrs. Helen A. Grod is postmaster; Union, N. J., where the office is headed by Mrs. Jule A. Douglass; Corpus Christi, Tex., headed by Mrs. Ameta C. McGloin; Boys Town, Neb., under Mrs. Theresa Mullin; and Beverly Hills, Calif., with Mrs. Agnes Richmond (acting postmaster).

## Walther League To Have Picnic

The Walther League, an international organization of the youth of the Lutheran Church—Missouri Synod, has as its objectives the training of the church's youth as future leaders and well-informed, dedicated torch bearers in the church. The basic ingredients of its year-round program of training are: Worship, education, fellowship, projects, and recreation.

In accordance with these objectives, plans have been completed for a winter picnic of the Lake of the Ozarks, zone of the Walther League, in which the eight local leagues will take part. They are: The Walther Leagues of St. Paul's Lutheran of Stover; Trinity Lutheran; Holy Cross Lutheran; St. John's Lutheran; Mt. Hulda Lutheran of in and around Cole Camp; also Immanuel Lutheran and Zion Lutheran near Lincoln; as well as St. Paul's Lutheran of Sedalia.

This winter picnic will be held in the high school gymnasium at Lincoln Sunday, Feb. 9, starting at 2:30 p.m., with Immanuel and Zion Lutheran Leagues as hosts to the gathering. Included in the program of the afternoon and evening are various elimination games and a volleyball tournament with an engraved Walther League trophy to be presented to the winning team. All Leagues are requested to bring a covered dish for the evening luncheon and be dressed for participation in all games. Only tennis shoes will be worn on the gymnasium floor. An offering will be gathered to help meet expenses. Group singing, quiet meditation, evening hymns and prayers in the vespers will close the day's activities.

## Local Dentists Attend Meeting At Whiteman

Parents need instruction in dental care in order to pass the information along to their children, it was brought out during a meeting of Sedalia, Air Force and Warrensburg dentists at Whiteman AFB last week.

Dr. Carl Almquist, Sedalia, said the meeting and luncheon was held to mark Children's Dental Health Week, which is to be observed nationally Feb. 2-8. The WAFB plan calls for special instruction in the schools, poster contests and movies, according to Maj. Joseph Saia, base dental surgeon.

It was also brought out, according to Dr. Almquist, that it was the responsibility of parents to see that their children carried out a progressive dental health program on their own. The high incidence of carious decay in young teeth makes it imperative for parents to see that baby teeth receive the same care as adult teeth, it was explained.

Sedalia attending the meeting were Dr. and Mrs. Briggs Rice; Dr. and Mrs. Orville Durnell; Dr. and Mrs. Carl Almquist; and Dr. F. I. Lawrence. Representatives from Warrensburg were Dr. and Mrs. Joseph Douglas; Dr. and Mrs. James R. Whiteman; and Dr. and Mrs. James Y. Johnson. The doctors from Sedalia are members of the Sedalia Dental Society.

## Brick Homemakers Select Extra Projects

The Brick Homemakers met at the home of Mrs. Sammy Potter Thursday evening with nine members, one guest and six children present.

Mrs. Reuben Bergman joined the club.

Mrs. Harry Brodersen led the devotional based on the 121st Psalm. Roll call was answered by

each telling the title of a book that they had read or planned to read this winter. Mrs. Pete Peterson gave an interesting health talk, telling of the help the polo shots had been in reducing the number of cases of the disease and about an eye clinic to be held at the school in the near future. She told of the new work being done by the

specialists in forming a bone bank similar to the blood bank now in use.

The bookmobile was discussed by the club president, Mrs. Jess Parsons. She also told of the changes in the new standard of achievement for the new year. Extra projects for the year will include plastic plants, leather craft, aluminum etching and pastry cooking.

# Elbel Builders Move To Lions Semi-finals

## Lee's Summit, Warrensburg Also Advance

Ray Homan Has Fracture of Ankle, Continues to Play

The Elbel Builders of Kansas City advanced to the semi-finals in the Lions Club invitational tournament Wednesday night when they defeated a favored Broadway Lanes in the most thrilling game of the tournament to date. It was a last minute 67-64 victory. Lee's Summit and the Warrensburg Collegians advanced to the quarter-finals as they won their games in the first round play.

Lee's Summit defeated Otterville 50 to 37 in the second game of the evening, while Hamm's Beer team of Sedalia dropped their tilt to the Warrensburg Collegians 46 to 61.

The some 200-odd fans didn't know it at the time, but Hamm's suffered one of its worst setbacks in an injury received by Ray Homan, a former Smith-Cotton High School star. They saw him get his ankle hurt during the warm up, but figured it apparently didn't amount to much as he went on and played the entire game.

Homan, after the game, had his ankle examined and found he had suffered a fractured bone. The left foot was placed in a cast, and as soon as he could, Homan was back to Horace Mann School to see the final game of the evening. In spite of his injury, which he favored through the contest, he hit the basket once for a goal and once for a free throw for three points for Hamm's.

The Hamm's-Collegians game started out in a tough battle and continued as such through the first half. The first quarter was knotted 14-14, and in the second stanza the locals moved ahead by one point, 15-14, for an intermission lead of 29-28. The third period opened up with neither team showing much, but the Collegians did gain a four point lead as they scored a 11 to 7 quarter. The final session of the game was the walk-off for the Collegians as they ran up a rally of 22 points to the Sedalians' 11.

Ahle of Warrensburg was high point man of the game, getting six goals and six free throws for 18 points, followed by George who had a 5-5 for 15 points. For the Hamm's aggregation Murphy was top scorer with a 5-4 for 14 points followed by Morgan with five goals for ten points.

The Lee's Summit and Otterville game was not a spectacular one but it was close with the exception of the second quarter rally by the Jackson County aggregation. It was a nip-and-tuck affair through the first quarter which gave Lee's Summit nine and Otterville seven. The second saw a 22-point rally brought forth over the 11-point scoring of Otterville. The halftime score was Lee's Summit 31-18. But the third and fourth quarters were deadlocks, scoring 9 to 9 in the third and 10 to 10 in the final.

Bob Horne led Lee's Summit scoring, getting six goals and three free throws for 15 points while teammate J. John hit six baskets and two free throws for 14 points. With the exception of Fowler who scored six goals for 12 points for Otterville, the scoring was fairly well divided up. His closest competitor on his team was Burford, with three goals for six points.

The final game of the evening was one filled with thrills from the opening tip-off until the final horn ending the game. In spite of Elbel Builders of Kansas City being the favorite of the sidelines, Broadway Lanes battled along trying to hold their three-point lead at the 15-minute time. Jumping to a 20-15 lead in the first quarter, the Lanes were outscored in the second, 21-18, but the halftime lead still belonged to the Sedalians by a two-point margin of 38-36. In the third period, the lead slipped away and Elbel moved ahead by one point, 55 to 54.

The battle was on in the final stanza and fouls told the story. The lead switched back and fourth

## Salem Bounces Owensville Out

The 27th annual Eldon Invitational Tournament was spotlighted by an upset Wednesday night when second seeded Owensville was bounced out of the meet in a quarterfinals struggle by Salem, 44-38. Salem, the fifth-seeded quintet, defeated the Jefferson City Jays in the first round of play. Their record for the season is now 17-4.

Owensville went into the game, apparently over confident, and goofed off in the first half, trailing at intermission 22-17. In the third period the underdog Salem crew stretched its advantage to 35-22. Owensville opened up in the final quarter, but it was too late to repair the damage.

In the final first round games, St. Elizabeth edged Warsaw, 66-59, and Urbana nipped Camden-ton, 58-57. Warsaw, after taking a 16-14 first period lead, dropped behind in the second frame and, although the Wildcats fought St. Elizabeth on nearly even terms, they were never able to regain the lead. Joe Freund led Warsaw with a fine 27-point effort, but A. Bax of St. Elizabeth took game-scoring honors with 30.

Camden-ton, the first Tri-County Conference school to suffer a tourney defeat, led Urbana after three quarters, 44-38, but lost out when the victors staged a 20-point scoring spurt in the final period. Eight players figured in Camden-ton's scoring with Williams and Legon pacing the attack with 11 and ten points, respectively. A. Lowrey, bucketed 22 for Urbana.

Up to three minutes when Elbel had a two point lead of 61-59, John Lenox dropped one in from the right side of the basket to move into a tie. A foul on Elbel gave the Lanes a one point lead of 62-61. One and a half minutes were left as the Lanes picked up two points on Sally's setup.

But then a Lanes player drew a technical foul and both points were picked up by Ralph Osborne, shortening the breach by one-point of 63-64. Elbels gained possession of the ball and called for a time out at one minute and 20 seconds to go to set up a scoring play. The time out worked, Eisenhower sank the ball to snatch a one-point lead of 65-64. Gene Sally fouled Ross with 45 seconds to go and Ross made them both. Then Sally fouled Osborne with five seconds left and he missed. The game ended as the Lanes were taking it down the court, 67-64 in favor of Elbel.

Second-guessing coaches came up with two points which probably proved costly to the Sedalians, one when Salley missed a setup which would have given the Sedalians a 66-63 lead, another was when Salley became angry because he claimed Bob Allen of Elbel was "riding him," and a technical foul was called on Salley at the minute and a half time.

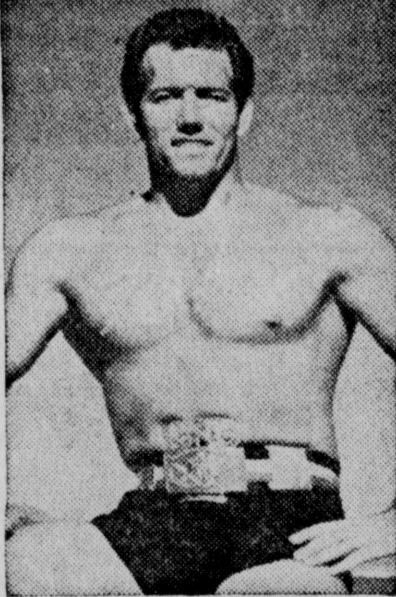

It was a terrific and thrilling game for the spectators. Many basketball fans will recall Ralph Osborne, back in 1954, when he was the star for Mack's Creek High School. That year he won the honor of being the highest high school basketball scorer with an all-year average of 36.8, and three different times that season was the high point individual scorer, getting 57 points in each of the three games.

He is now located in Kansas City. Tonight's schedule calls for Hughesville vs. Collegians at 6:45 p.m.; Windsor vs. Western Auto at 8:15 p.m.; and Warsaw vs. Lee's Summit at 10 o'clock.

PAUL SAXTON

## Von Krupp, Etchison Meet Here Tuesday

Not only is Otto von Krupp one of the world's strongest men, but he apparently is one of the top men in the world of wrestling according to his record. The goose-stepping Dutchman has gone undefeated in more than 120 matches in contests all over the nation and his reverse bear hug is probably the most feared of all holds in present day use.

In a search for someone to rid the Midwest of the Flying Dutchman, promoter Gust Karras went over a long list of names with impressive records and of the one or two men presently in this area Ronnie Etchison seems to hold the edge, not only for his impressive strength, but also for his ability to mix it with the rough type matman.

Ronnie also has an outstanding record and with his many years of experience, it is hoped that he can turn the tables on the powerful former storm trooper from Munich. Tuesday night will tell the story, when the two meet in the main event for a one hour time limit that has a 2 out of 3 fall to win limit.

Challenging the main event for action and interest is the semi-final bout for two out of three falls or a 45 minute time limit. Newcomer Bob Geigel, former Texas State champion will meet popular Sonny Myers, who also held that same title too long ago. The two men are evenly matched and are of equal ability and experience and both are quick to take advantage of any mistakes their opponent might make. The result of this match will depend entirely upon just who makes the most mistakes with both men going all out to gain the ultimate victory.

Even the opening event on this card could well hold down the main event position since two of the outstanding grapplers in modern day wrestling are matched in the one fall thirty minute contest. Although a newcomer to Sedalia and the Midwest, Paul Saton is no beginner and he comes here highly heralded as the Pacific Northwest Heavyweight Champion and he opposes villainous Bull Montana, a rougher of high reputation and ability.

## Hubbard Scores Seven Straight Wins

The Hubbard Tigers scored their seventh straight victory Wednesday night, and 12th of the season, as they defeated Lincoln's Cardinals 67-62 in the Lincoln Court. The Tigers have lost four this season.

The Tigers trailed 33-31 at half-time after they had blown an eight-point lead in the second period. Hubbard held a 23-15 first quarter lead as high-scoring Gene Sims set a torrid pace through the period with 16 points and Ernest McFeders netted seven. Sims and McFeders each scored 19 for the game to lead the Tigers.

The Cardinals' lead was short-lived, however, as Hubbard bounced back in the third frame and held a 48-46 lead at the end of three quarters. The Tigers went ahead in the final frame with 19 points and limited Lincoln to 13 for the victory.

Burl Jones carried the load for Hubbard through the second half as he accounted for 14 points during that time. He totalled 16 for the game.

Sophomore Ace Robin Suhl led the Cardinals' offensive with 23 points and Larry Kreissler contributed 19.

In a preliminary contest, Lincoln reversed the situation. The two "B" teams battled to a 9-9 first quarter deadlock before the young Cardinals found the range to take a 26-21 lead at the end of three quarters. Cline led Hubbard with 13 points, followed by Robinson and Christian with ten each, and Myers was high for Lincoln with 14 markers.

## Phillips 66, Troop 51, A Team Win

Phillips 66 and Troop 51 emerged winners of two closely contested games in the Optimist basketball league last night at Whittier School, while the Optimist A team won an easy victory.

In the opening tilt the Optimist A team, sparked by Ronnie Mullberry scoring 14 points on fast break set-ups, won over the Capital team 39-9 who had continual trouble getting the ball inside the tight Optimist zone defense. Dennis Lively and Arthur Huff controlled both backboards for the Optimists. Top scorer for the Capital was Don Hausam followed by Larry Foster with three. Kenny Simon chipped in with two points to round out the Capital scoring.

Lively had seven points, while Emory Morris and Ronnie Miller scored four apiece and Huff scored two points to back up Mullberry in the Optimist win.

One of the better games of the season saw Phillips 66 defeat the Democrat 30-26 in the evening's second game. No more than four points separated the teams as they battled down to the closing whistle.

Going into the final quarter with the Democrat leading 20-18, Phillips applied a full court press and succeeded in going ahead 27-26 with 30 seconds remaining on Alan Miller's field goal. Butch Walker added a free throw and Stanley Younce a two-point to sew up the game for Phillips.

Fletcher Gravitt contributed 12

## Public High Downs S-C

Smith-Cotton's deflated Tigers lost their third game in a row Wednesday night, suffering a 50-41 whipping at the hands of Public High of Warrensburg in the opening round of the Red Division in the 33rd annual Clinton Invitational Tournament.

In other opening round games, North Kansas City walloped Holden 64-31, Windsor polished off Adrian 45-34, and Clinton rocked Lexington 64-33.

In tonight's games, Montrose and Kingsville meet at 7 o'clock for the consolation title; Chilhowee plays Cahoon at 8:15 for third place in the winners bracket and Deepwater vies with Osceola at 9:30 for the championship, all in the White Division.

The cold Tigers trailed 21-14 at the half and never seriously challenged the Warrensburg aggregation.

points to the Democrat attack while Mark Shelby had seven points, Bob Barnes five, and Jim Hausam one. Younce was high man for Phillips with nine. Ken Iman scored six, while Ralph Kreisel, Miller and Walker scored four points, and Dale Herrick three points.

Troop 51 outscored the First Baptist RA's in the first and third quarters to win the final game of the evening 18-11. Ray Briggs was the big gun for Troop 51, dropping in 14 markers. Ellis scored seven for the Baptist while Dicky Lybarger and Wallace had two apiece to round out the scoring. Mike Green and Alfred Pummil backed up Briggs for Troop 51 with two points each.

John Middleton and Marshal Bryan led Smith-Cotton's offensive with 14 and 13 points, respectively. Only five Public High players figured in the scoring, but four of the five hit for double figures with Block setting the pace with 12 points, Thompson and Goring had 11 each, and Saunders netted 10. Windsor's Greyhounds had little trouble with Adrian as they outscored the losers in each frame. The 'Hounds led 25-18 at the half-time and made it 33-24 at the end of three quarters.

Fred Kurtrigh led Windsor's offensive with 14 points and Harland Hess was high for Adrian with 13 points.

## Dupas Wants a Shot At Lightweight Title

NORFOLK, Va. (AP)—Classy Ralph Dupas of New Orleans wants a shot at Joe Brown's lightweight championship, and he and his handlers are willing to take just about any step that will assure it.

## Lions Ping-Pong Tourney Moves To Semi-Finals

In the Table Tennis tournament being held in conjunction with the Sedalia Lions Club Invitational Basketball Tournament, Dick Esser continued to display his power at ping-pong and moved into the semi-finals Wednesday night.

Cliff Barr and Bill Wilson who were playing in their first round of the tournament moved out the quarter-final brackets. Incidentally, Barr and Wilson meet tonight in this bracket.

Esser, playing Fred Arbogast in the quarter-final game, won three straight games. Esser had defeated Mrs. Dorothy Huddleston and Arbogast had defeated Ben Buchholtz in the first rounds. Esser's victories over both opponents were three straight games in each session.

Barr defeated Albert Allgaier 3-2 in their play, while Wilson gained a 4-1 victory over Alpert.

Tonight Tom Delph will meet W. C. "Wink" Ream, and Bob Schulz plays George Thompson in the other two quarter-final games. The semi-finals are to be played Friday night and finals on Saturday.

## Army Officer Out for Cash On Quiz Show

NEW YORK (AP) — My mother told me that Capt. Michael O'Rourke is "an intelligent, pleasant, well-mannered young man" (NBC-TV, Thursdays).

Capt. O'Rourke has had mother glued to the set for six or seven weeks. She'll be there tonight waiting to see if O'Rourke stays at \$53,100 in his contest with Mrs. Pat Nance or slips to \$26,600 and climbs to \$79,000.

O'Rourke and I had a cup of coffee together the other day. While mother and I have disagreed on many things, we're in complete accord on the subject of O'Rourke. He's an intelligent, pleasant guy and I hope he wins a million bucks.

There's a lot of talk these days about TV quiz shows being primarily programs of personality or psychological interest while the matter of money is only secondary. Probably that sort of talk has been overdone. The money is the most important element — at least for the contestant, and certainly for O'Rourke.

"I've never had \$5,000 in my hands," he said. "I don't know exactly what it means. And \$50,000 — well! I only know that it would mean an awful lot to the O'Rourkes."

O'Rourke, 29, is a native of Denver and graduate of the University of Denver, class of 1951. After graduation he shipped to Korea as a second lieutenant and served with the 2nd Division — which means that he didn't have a ball.

He's now in the regular Army, meaning that the Army wants to keep him. He intends to stay. No matter how high he goes on Tic Tac Dough he wouldn't think of quitting the Army.

He's now assistant professor of military science and tactics at Western Michigan University in Kalamazoo. Although I didn't ask him, he's probably making about \$6,500 a year, counting allowances.

**AN EARFUL**—The object that this chap is holding between thumb and forefinger is actually a tiny radio. It has to be plugged in to work — in the user's ear. Developed by two engineers in Hanover, Germany, the transistor receiver requires no large battery or connecting wires, is slightly larger than a flashlight battery.

## Local Farm Bureau Membership Drive Gets Underway Soon

The Pettis County Farm Bureau membership campaign will get underway Monday morning, Feb. 10, at the First Christian Church, starting at 9:30 a.m. All workers, directors and any one interested in Farm Bureau are welcome to attend and hear from one of the outstanding farmers in Missouri, Robert Guthrie of Callaway County. Gov. Blair has proclaimed Feb. 9-15 as Missouri Farm Bureau Federation Week.

## New Mrs. Crosby Expects August Baby

HOLLYWOOD (AP) — The new Mrs. Bing Crosby has acknowledged happily that the report is true.

"We are expecting a baby," she said through a studio spokesman yesterday, "and both Bing and I hope that everyone will be as pleased as we are."

The baby is expected to arrive about Aug. 15, the studio said.

The mother-to-be, actress Kathy Grant, 23, and the singer were married last Oct. 24.

Crosby, 53, had four sons by his previous wife, actress Dixie Lee. She died five years ago.

## Nick Follows Brother Pat In Recording

By BOB THOMAS

HOLLYWOOD (AP) — This fellow Nick Todd looked familiar.

The light dawned when he said his actual handle was Nick Boone.

That was it! In profile, he had the same handsome looks as Pat Boone, his brother. Darker and a year younger, Nick is also trying to carve a name for himself as a singer. He's having some success. Tonight he appears with Bob Hope on TV, and his records are selling well. But he admits that following a famous brother can have its hazards.

"I'm often asked if being Pat Boone's brother has helped or hurt me," said the tall 23-year-old (both were born on June 1, a year apart). "I can only say this: that it certainly has helped me get my foot in the door."

But in other respects, it can be a drawback. That's one of the reasons he underwent a name change.

"I know that I can never get away from the fact that I'm Pat's brother," he explained. "People will always be conscious of it. But I think they will be less conscious if my name is different."

Nick got off to a good start with his first record, "Plaything," and is getting a nice play with his new disc, "Teen-Age Cuties." Besides the Hope show, he has appeared on TV with Ed Sullivan, Pat Page and Pat Boone, of all people.

I asked him if Pat gave him any help in his career.

"Not specifically," he said. "But he has given me some advice. He told me that when I sang a song to be sure to think about the lyrics and really believe them."

## Swains Trapped

BELTON, Tex. (AP) — Mrs. D. H. Wilkinson told police that under her house was the "awfullest yapping, whining and howling you ever heard!"

Sonny Blankenship, member of a city crew sent to investigate, found the cause.

Using a rope, Blankenship sent up from the dry 12-foot deep cistern under the home six scared dogs, including the canine temptress that lured them under the house in the first place.

## LODGE NOTICES

St. Omer Commandery No. 11, Knights Templar will meet in Special Conclave on Thursday, Feb. 6, 1958, at 7:00 p.m. for work in the Order of the Temple. All Sir Knights welcome. Roy F. Spears, Commander. W. L. Reed, Recorder.

## Forgets Left Turn

LOUISVILLE, Ky. (AP) — No indictments were returned by the grand jury yesterday because one juror forgot to make a left turn.

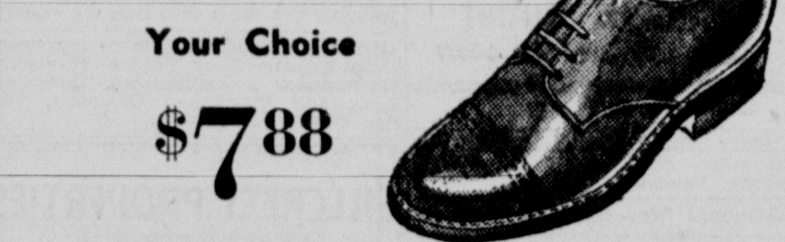

The jurors must make a left turn at the bottom of a flight of stairs en route from the jury quarters to Criminal Court.

Martin J. Murphy forgot to turn and walked out another door. His absence wasn't noted until later. By that time, he had disappeared.

True bills will be returned Monday.

## Traces History

## Public Accountant Gives Speech On Taxes to Sorosis Members

A very informative talk on the subject of "Taxes" was given Monday afternoon at Sorosis by Mrs. Frank Wagner, certified public accountant of the firm of Taylor-Wagner, certified public accountants, of which she is a partner.

Quoting Aristotle, Mrs. Wagner said "If you would understand anything, observe its beginning and its development."

When barbarians more than 5,000 years ago, Mrs. Wagner said, scratched on rocks which led to picture writing from which came figures it eventually led to accounting, which has its roots

deep in the past. England, Germany and Italy had forms of bookkeeping in the Middle Ages and the Books of Genoa were published in 1340. In 1494 came the beginning of double entry bookkeeping. Textbooks came out after 1892.

Until the sixth century, all trade was done on the barter system when so much of one product was traded for so much of something else. Then came the use of coins, when so many units of coin were given in payment for things. At the Temple of Athens, long inscriptions on stone in 329 B.C. were made by public officials to prove that the respective treasurers could account for everything, Mrs. Wagner said.

In the 17th century many of the colonist sent their sons over to England to learn bookkeeping and George Washington himself did bookkeeping and insisted on a budget. Bookkeeping, Mrs. Wagner said, really sprouted in England and then came to America.

It is not certain, said Mrs. Wagner, where the income tax originated, but it was sometime before the Christian era. In England it started in a very modest way and came first to America in 1634. In 1910 there were 20 states that had income taxes she said. It was in the war of 1812 that the federal income tax was first put into effect. It was later stopped and then passed again, but it was in 1909 that the amendment legalizing federal income tax was introduced. It was a levy of 1 per cent with an exemption of \$3,000 for single people and \$4,000 for married people and only those with an income of \$20,000 had to pay. In 1914, the first full year for the income tax, it was less than 10 per cent of the federal income. Today it is 77 per cent.

Every individual should study tax, Mrs. Wagner said, and she listed many deductions. Donations do not have to be in cash, she said, state and local taxes may be deducted, the cost of automobile accidents where the damage was not covered by insurance may be deducted, a tree blown down in your yard, anything taken by thieves, hospital bills, new glasses, false teeth, all medical items, may be deducted.

There is a \$600 deduction for a member of the household whom you support, or dependents outside of your home who are close relatives. If a dependent should get as much as \$900 social security, he still may be claimed if he spends or invests in and you provide his living. She told many ways in which to save on income taxes by turning over property to someone or giving some to your children now instead of waiting until you die and all the time paying tax to Uncle Sam. Shifting income in a family group is another way she said, but pointed out that all transactions must be as carefully planned as they would be between strangers. Rent, too, could be transferred to another, and employing members of your family, borrowing from them, too, and paying interest can help. There are many loopholes, she said.

In Missouri, she said, taxes consume so much of your income because 29 per cent of the income goes for local, state and federal taxes, which is \$3 out of every \$10. Mrs. Wagner stated that today the vast majority of women come under Social Security. Monthly benefits are now paid to widows and aged mothers. A woman is eligible for Social Security at 62, Mrs. Wagner said, but she would be wise to wait three years until she is 65, because taking it at 62 she gets only 90 per cent.

Mrs. Wagner does not believe there will be an increase in taxes this year, an election year. It would be suicidal, she said, Capitol Hill, she pointed out, is talking about a tax cut in mid-year as a last resort to halt the recession but it is believed an upturn in the country's economy is to come in late May or June.

The certified public accountants have made a detailed study and the committee studying taxes have made 262 recommendations, she said. Congress has been very receptive to the suggestions and have used many of them. We live in a fast moving economy, she said, and a good law this year may be out-dated next year. They are now developing a fair tax law, she said.

Today, Mrs. Wagner said, women are no longer shielded from the responsibilities of living costs. The modern woman knows about

the cost of living, the amount of money it takes, the higher standard of living and what it takes to manage to live on a certain income and it must be a husband and wife team. She should study taxes, take stock of the insurance, and know what is going on.

Mrs. Wagner was introduced by Mrs. Leo Eickhoff, current topic chairman.

Mrs. Alice Wolfe, history and literature chairman, announced that next week a book review will be given by Mrs. Emmett Ellis, Warrensburg, and there will be a luncheon in her honor.

Mrs. Harold Dean, president, conducted the meeting.

## Boy Is Given Big Gyroscope For Rocket

WILMINGTON, Del. — A lad with a persuasive pen got his wish today. For 15-year-old Richard Harkness it was a big step toward the world of tomorrow.

Last August, the Springer Junior High School student decided to build a rocket guidance system, but he lacked money — a matter of about \$1,000 for a gyroscope, the basic control element of a rocket.

Richard sat down and wrote a letter to Minneapolis-Honeywell Regulator Co., manufacturers of automatic flight control systems. Honeywell found a gyroscope of the kind the company made until 1952 for bombers.

Today, the gyroscope, in perfect working order, was turned over to Richard by Robert L. Luban, Philadelphia area service engineer for Honeywell's Aeronautical Division.

Electronics — particularly as it applies to missiles and rockets — has been Richard's hobby since he was 10. He's already designed a selective parachute ejection system and a telemetering system centered around a radioisotope, a weather transmitting system.

Recently, he attempted to launch a two-foot solid fuel rocket, but the missile became stuck in the launching device. With his new gyroscope he hopes to have better luck with a new five-foot rocket.

So far the rocket, a maze of intricate parts when assembled, has cost him only \$15. Still in the drawing board stage is a six-foot job. Richard plans to launch it with solid fuel, and if all goes well, the nose cone, equipped with a 60-cent camera rig to take pictures, will split off and parachute back to earth.

## Father Tells Boy 'Go Rob a Bank'

PATERSON, N.J. — A 16-year old boy whose father told him to "go rob a bank" did just that, police said.

The boy and a companion, also 16, were arrested here yesterday. Police said they admitted stealing \$36 in cash, a revolver, an electric razor and some foreign coins worth 64 cents from the Prospect Park National Bank earlier in the day.

The father of one of the youths made the unusual admission, apparently in jest, when his son asked him for some money, police said.

The perfect accompaniment for salad served as the first course: crisply seeded crackers, cheese balls or cheese straws (made from leftover pastry).

## Hotel People In Florida Drop Prices

MIAMI, Fla. — Plush vacations in Florida dropped within range of the average tourist this winter as resort hotel operators scraped for business made scarce by bad weather.

Three freezes, wind storms and torrential rains added up to the worst season for tourists within recollection of the Miami Weather Bureau. Business was off 20 per cent.

The bottom was reached yesterday when the mercury plunged to 28.

Swank hotels which formerly charged \$50 a day per room and turned away takers have offered rates of \$11 to \$15 per person, sometimes including breakfast and dinner.

Hotels placed ads in Northern newspapers offering the rare low prices, with extras. One promised that the hotel would pay for the wife's round trip by airplane if a couple would make a reservation for 10 days longer.

The weather, which brings Florida a billion dollar a year tourist business, is blamed almost exclusively for the slowdown. Few think the national business slump has very much to do with it. Some, however, think the opening of swank gambling clubs in Havana, Cuba, only 200 miles south of here, are partly responsible.

The most recent blow from the weather came early this week when temperatures dropped below freezing virtually throughout the Florida resort areas.

But by yesterday afternoon the sun was burning away the cold and wary sunbathers were trickling back to the water.

There are already indications that the bargain vacation rates won't last much longer.

The state hotel commissioner, Richard Edgerton, said hotels are booked solid for the remainder of February and March.

"Unless the bad weather continues, there will be terrific crowds through March and nobody believes the bad weather will continue," Edgerton said.

## Stuck in Chimney

ALTMORE, Northern Ireland — Harry McVeigh, 44, locked himself out of his new house yesterday.

Unwilling to break a window or force a door, he got a ladder, climbed to the roof and started down a chimney.

Some 13 hours and many plaintive calls for help later, McVeigh attracted the attention of a passing hiker. Rescuers hauled him out at the end of a rope, sooty but unhurt.

Then they helped him force a door.

## Farm Federation Week Set for February 9-15

Gov. James T. Blair Jr. has proclaimed the week of Feb. 9-15 as "Missouri Farm Bureau Federation Week" and has asked the cooperation of all Missouri citizens in making the observance an outstanding success.

In his proclamation, issued Jan. 13, the governor noted that the state ranks sixth among all states in farm income, and that the 273,374 Missouri farms produce the food for the state's ever-growing population and fibre for expanding industries.

He stated: "In following the slogan of 'Leading not Leading, Working not Watching,' these farmers continue to build strong, independent farm organizations to assist them in improving farm income and rural standards of living both in Missouri and the United States."

## Stress Brings Virus, Two Doctors Report

LOS ANGELES — To keep the viruses away, keep calm.

Evidence that stress raises susceptibility to virus infections was reported yesterday by a UCLA research team.

Dr. A. F. Rasmussen Jr., James T. Marsh and Norman Q. Brill injected mice with a virus that gives man "cold sores." The animals were subjected to stress from mild electric shocks. Another group of mice got the injection but no shocks.

## Ike Considers Cultural Conference

NEW YORK — President Eisenhower is considering a plan for a worldwide cultural conference to seek "new and better ways for human beings to exist peacefully together" and to benefit more from scientific discoveries.

Sherman Adams, the President's chief aide, disclosed the project last night.

He said the President last week "asked some able people to consider how such a project might be initiated."

Adams, describing the scope of the proposed conference, asked this rhetorical question: "Who is there who can say that a convocation in this country of scholars, historians, artists, theologians, educators, sociologists, philosophers, artists and musicians — representatives of the cultural pur-

suits of all the human race — meeting each other in their respective groups — could not suggest new and better ways for human beings to exist peacefully together and to reap the greatest rewards from man's scientific discoveries?"

Adams discussed the project in addressing a Dartmouth College national alumni dinner. He is a graduate of Dartmouth, at Hanover, N.H., and a former governor of New Hampshire.

Adams suggested that a conference such as the one under consideration might be organized and sponsored better by American colleges and universities than by the U.S. government.

He added: "For this must be no propaganda effort or labeled as such. It must be undertaken by those whose contributions offer the best promise of making it a success."

**SOVIET INTERCEPTOR**—This is the Fishbed B, Russia's new supersonic, delta-wing, single-seat interceptor. The plane, featuring a swept horizontal and vertical tail, made its first appearance in the 1956 Tushina Air Show. Note that a fixed compression cane is centered in the air intake. Above photo appeared in Naval Aviation News, official publication of U.S. Naval Aviation.

## Comfortable Temperature

## US Satellite Reveals That Man Could Live Within One

PASADENA, Calif. (AP) — Evidence that man could live in a satellite is being radioed back continually to the men monitoring America's first moon.

Temperatures inside the satellite are well within the range that human beings can tolerate and so far there has been no damage from meteorites, scientists disclosed.

They said the satellite's instruments also have confirmed the long-standing belief that cosmic radiation in space usually is well within the safe exposure limits for man. Hence these rays will not be a menace to astronauts, they said.

The men who developed the Explorer told a news conference that temperatures within the tiny man-made moon are somewhere between 50 and 86 degrees Fahrenheit, or as scientists say, "room temperature."

"We designed the satellite to maintain these temperatures," said Dr. A. R. Hibbs, "and coded messages radioed back from the satellite indicate our plans were successful."

Hibbs, 33, is section chief of the satellite research program of California Institute of Technology's Jet Propulsion Laboratory.

The Explorer was designed primarily to test instruments in space, but much of the information it radios back to earth will have value when a manned satellite is launched, Hibbs said.

"We will control the heat even more closely," he said, "and build an even harder shell for protection against meteorites."

The Explorer's inner heat is determined by controlling the amount of solar radiation allowed to penetrate the shell. This was accomplished by striping the satellite with zirconium oxide, a white reflective paint.

Messages from the Explorer indicate the temperature on the outer skin ranges from 212 degrees below zero Fahrenheit to 572 degrees above. Without precautions, similar temperatures would be experienced inside and the instruments would not function.

## Wilson Pledges PSE At CM State College

Robert Wilson, Houstonia, has pledged Phi Sigma Epsilon fraternity at Central Missouri State College at Warrensburg where he is a student. He is one of the 73 men pledged to six social Greek letter fraternities on the college campus.

Mid-winter pledge groups at CMSC are always largest because the state school requires a student to have a minimum of ten hours credit and a satisfactory grade rating before being eligible to a Greek letter organization.

## Harvey Wadleigh As Chairman For The Heart Fund

By Mrs. Verna Palmer  
GREEN RIDGE — Harvey Wadleigh, athletic director of the Green Ridge High School, has been appointed to serve as community chairman of the 1938 Heart Fund Campaign which will be conducted through the month of February.

The Pettis County Heart Association presented the Green Ridge Schools a plastic model of a human heart at a luncheon in Sedalia last Monday evening. The model was accepted for the Green Ridge School by Jack Chambers, a member of the faculty.

Mrs. George Paul and son, Billy, of Jefferson City were recent guests in the home of her parents, Mr. and Mrs. W. S. Bell in Green Ridge. Their son and family, Mr. and Mrs. Howard Bell of Knob Noster were also guests.

Mr. and Mrs. L. B. Beach spent Monday and Tuesday visiting Mr. Beach's sister, Mrs. Charles Spears and Mr. Spears in Lebanon, Mo.

Mr. and Mrs. Leroy Ragar and son, of Independence, were weekend guests of Mrs. Ragar's parents, Mr. and Mrs. John Bruns at their home in Green Ridge. They also visited Mr. Ragar's grandparents, Mr. and Mrs. L. B. Shaw.

The following officers for 1938 were recently elected for the Green Ridge Presbyterian Church: pianist, Mrs. L. B. Beach; choir director, Mrs. Vaughn White; treasurer, Mrs. L. H. Wadleigh; clerk of session, Mrs. Nannie Sims. The following Elders were installed by Rev. R. C. Williamson on Sunday Jan. 26 at worship services: E. H. Boltz, H. H. Ream, L. B. Beach was ordained as an Elder and also installed. Trustees installed were, Mrs. Beulah Anderson, Loy Smith and Melvin Ray.

Guy Ridenour was ordained a deacon and also installed as a Deacon. Julian Upton was also elected as a Deacon.  
Sgt. Gene Hollenbeck recently received his discharge from the Marine Corps Air Station at Santa Ana, Calif., after completing a two year tour of duty. Sgt. Hollenbeck returned to the home of his parents, Mr. and Mrs. W. F. Hollenbeck near Green Ridge last Sunday.

## Dog 'N Suds Dinner Held at Flat Creek

Dog 'N Suds gave a dinner on Jan. 28 at Flat Creek Inn, in honor of 24 employees. Special recognition awards were given to Sandra Mahnen and Robert Freund who have worked for Dog 'N Suds and their customers since their opening in 1936. Sharon Veder and Jaydeane Young were recognized as the outstanding carhops of 1937 season.

Bake fish fillets or steaks on an oven-proof platter, basting with butter or margarine. Then swirl an edging of mashed potato around them and brown under the broiler. Drained cooked green peas may then be added to the platter, along with lemon wedges, and you will have a main course in one dish.

## MORE PEP- FEWER POUNDS

In Every Bottle of

## United Church Women Vote On Prayer Group

The United Church Women of Sedalia met at the Wesley Methodist Church last Thursday with the president, Mrs. Fred Rose, presiding. The invocation was given by Mrs. Luther Landis, followed by a coffee hour with group singing led by Mrs. M. O. Stevens.

The motions were given by Mrs. H. W. Schrimsher. Mrs. Stevens presented Mrs. Agnes Jackson, who sang a solo, "Walking in the Light," accompanied by Mrs. D. F. Richards. Routine business reports were heard. It was voted to sponsor a voluntary prayer group. Mrs. Walter D. Niles announced the "World Day of Prayer" service would be held Feb. 21 at 7 p.m. at the Federated Church and introduced Mrs. Frank Coffman, who is co-chairman. The meeting was adjourned to meet March 28 at the First Christian Church.

Miss Mary Lou Bullock, Kansas City, spent the weekend with her parents, Mr. and Mrs. Howard Bullock.

Hal Boyle's Column

TV Show Proves Husband Is Smarter Than His Wife

By HAL BOYLE

NEW YORK (AP)—Most American husbands know more than their wives.

Even bachelors know more than wives.

These truths, long secretly suspected by men themselves, have been more or less scientifically proved by two young producers, Dan Enright and Jack Barry.

The pair produce two NBC-TV network quiz shows, "Twenty-One" and "Tic Tac Dough," on which some 1,600 contestants have won \$1,200,000 in the last 18 months.

During that time 17,000 aspirants took a preliminary general information quiz of 100 questions. So, if you want to know what your chances of getting on such a program are, here is your answer: The odds are better than 10 - 1 against you.

The weeding-out written examination has led to some disclosures that might interest psychologists as well as educators.

"For one thing," said Enright, "although housewives make up the largest single group to apply as contestants, they do the poorest."

"They simply don't have the range of knowledge that men do. Housewives usually can answer only 60 per cent of the 100 questions."

"Men, on the other hand, get about 70 per cent correct answers—and so do career women. The reason that career women do so well is probably because they have to compete with men in the business world so they have to keep better informed."

But Enright, wary of stirring up the wrath of housewives readily admitted they had a realm of knowledge all their own—the art of homemaking—which is rarely investigated on quiz shows.

"They simply don't have the time to run their homes and still pick up all the general information their husbands know," he said. "In their free time, they like to escape from their cares. They want relaxation and entertainment, not heavy reading about world affairs."

Women generally, whether housewives or career gals, don't do quite as well as men even if tests show they are of real contestant caliber. Enright still isn't sure why.

"One psychologist explained it was because women are naturally more averse than men to being challenged and placed in a position where they might publicly fail. But I'm not so sure that's so. After all, as many women risk marriage as do men."

What occupational group does best on quiz shows? Oddly, it isn't teachers, doctors, engineers, scientists or lawyers.

"They are all tops in their specialties," said Enright. "But authors and newspapermen seem to have a wider range of information on general topics. They have to. It's the nature of their jobs."

Enright, only 40, has a pretty

Gets Full Day's Pay To Attend Meeting

An old Missouri law specifies that delegates or their alternates from each county school district attending annual school board meetings will be paid. In addition, they will receive a travel fee from their school district to the site of the meeting.

Under this same law, according to County Superintendent C. F. Scotten, these individuals who attend the Pettis County school board meeting Thursday will be paid. But they will never get rich attending school board meetings.

The old law, which has been on the books for more than 50 years, says each eligible representative will receive \$1.50 per day. Travel pay, however, is based on a more modern concept, at five cents per mile. Evidently it cost about as much to feed a horse around the turn of the century as it does to buy gasoline today.

SCENIC TOUR—The average driver in the United States logged about 9,300 miles last year, according to the American Automobile Association. If all those miles had been put into one trip, starting out from Fairbanks, Alaska, on the Alcan Highway and traveling the Pan-American Highway through Central America, Mr. Average Driver would have ended up somewhere between Quito, Ecuador, and Lima, Peru.

wide range himself. He began as a radio engineer, switched to programming because he felt his talents were too confined.

He is quite philosophical about the attacks of critics against the quiz shows which have buttered his own bread golden.

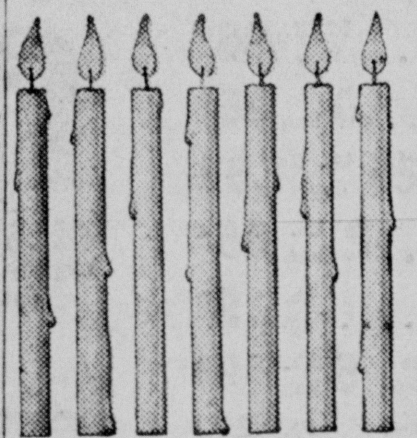

"If there is a plethora of any type of program," he said, "it isn't because there is an obstinate group of network officials and sponsors trying to force their own ideas on the public. It's because the public, as best they can tell, want this type of entertainment."

"We are dealing with the most ephemeral thing in the world—public taste. Anybody who can call his shots right on public taste can write his own check."

"These things do run in cycles. There will probably always be room for a good quiz show as long as it remains entertaining, but the period in which quiz programs were pre-eminent is past. We're in the Western show cycle now."

Well, how about the next cycle? Will it combine the quiz show and the cowboy opera?

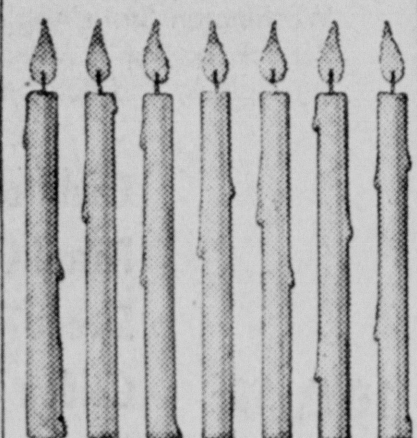

"No," said Enright, smiling. "I don't think most contestants would do very well on horseback."

## Couple Makes Home Movies Pay Dividends

By BOB THOMAS

HOLLYWOOD @—Lots of families make home movies, but none has made them pay off as well as a friendly couple named Virginia and Andrew Stone.

Operating from their Westwood Hills home, the Stones make movies with noted stars and the result is shown in theaters around the world, rather than living rooms. They're a unique film operation, perhaps the most unusual in Hollywood.

Andrew gets the idea for a movie, writes the script, produces and directs. Virginia cuts the film, assists her husband in many ways and scouts the locations. The latter is no small affair, since their films are shot entirely on location.

The remarkable thing is that their films are not only made at a fraction of what they would cost at a major studio. They also have won critical acclaim for their quality.

The Stone home is a busy beehive most of the time, but it is chaos right now. The reason is that they are building a new cutting room for Virginia out by the swimming pool and tennis court. She showed me her present base of operations—in the basement game room. Strips of film were everywhere, and the billiard table was stacked with cans of film. Virginia was busy on the final cut of their last film, "Cry Terror" with James Mason and Inger Stevens, and Andrew was at work on the script of their next one, "Infamy at Sea," with Mason and Dorothy Dandridge. They took time off to explain how they work.

"This is the system that I tried to sell the studios in 1947," said Andrew, who had produced some musicals and comedies for United Artists. "I knew that pictures could be made on location with a minimum of equipment and expense and a maximum of quality."

"I convinced no one. In fact, I

fear the word got around that poor old Stone had lost his marbles." Stone met Virginia when she worked for him as a music cutter. They married and formed a team to produce their own pictures (as well as two boys, 5 and 10). Failing to get studio backing, they found an angel who backed their first effort, "Confidence Girl." It cost \$50,000 and turned a healthy profit.

They continued operating on their own, finally hit the big time with "The Night Holds Terror," a crack melodrama, which Columbia bought outright. Next came "Julie," with Doris Day, Louis Jourdan, Frank Lovejoy and Barry Sullivan. Despite the top-draw-er cast (Miss Day earned \$200,000) they made the film for a total of \$750,000.

How do they do it? By trimming their operation to bare essentials. The equipment can fit into their garage—a light camera, tape recording gear for sound and simple lighting.

"We let the locations work for us," said Virginia, who sometimes must find as many as 75 for a picture. "We'll shoot 'Infamy at Sea' entirely on shipboard, using Matson liners and a Liberty ship along the coast."

### Smithton Marine Returns on Leave

Pfc. Kenneth R. (Bob) Kehl, son of Mr. and Mrs. Kenneth J. Kehl, Route 2, Sedalia, who recently spent a 30 day leave with his parents and grandparents, Mr. and Mrs. H. F. Baugh and Mrs. Jack Kehl all of Smithton, is now stationed with the 2nd Marine Division at Camp Lejeune, N. C.

He enlisted in the Marine Corps for three years on April 30, 1957, and took his boot training at Camp Pendleton, San Diego, Calif. After boot training he was sent to Teletype School in San Diego, and after graduation received his leave arriving home on Dec. 30.

### Church Service Guild Enjoys Smorgasbord

The Federated Service Guild of the Federated Church enjoyed a smorgasbord luncheon at 1 o'clock Thursday, Jan. 30, at which Mrs. Henry Holst, Mrs. J. L. Van Wagner, Sr., Mrs. T. R. Crafton, Mrs. Ray Carter, Mrs. Melvin Carl and Mrs. J. L. Van Wagner, Jr., were hostesses.

The Rev. Leonard Reifel introduced the speaker, the Rev. Armin Klemme, who gave an inspiring talk on "Carrying on the Kingdom of God in Our Midst." The Rev. Klemme brought in the joys and trials of Mary, the mother of Christ and how women of the church might follow her example.

Guests were: the Rev. Mr.

### Cut Green Sudan And Small Grain For Dairy Feed

Several folks in the county last year chopped green sudan and small grains and fed their dairy cows in dry lot rather than letting them graze. They reported twice as much feed realized per acre.

One of these dairymen, Jack Yeater, reported at the Soils and Crops Conference on this method of operation. He and his partner, C. L. Turner, put out ten acres of sudan on April 20, eight acres about May 1, and 17 acres on May 15.

They started cutting the first Klemme, the Rev. Mr. Reifel, Mrs. Smith from the Immanuel United Church of Christ, Mrs. Gibson, Mrs. William Anderson, Miss Mary Hurlbut and Mrs. J. L. Van Wagner, Jr.

field when it was about knee high and by the time they finished the 17 acres, some of it was head high on the tractor operator. In mid season they were cutting three loads a day which amounted to about five tons. This was being fed to 90 head of cows.

Cutting was started at 10 o'clock and took about two hours. About half of it was unloaded then and the rest at night. The unloading took one to 1½ hours for one man. Next year they are planning a self-unloading wagon or feeders built on wagons.

In mid-July they put up 180 tons of silage from 20 acres of the late cutting and then started pasturing the whole lot in late July. The field was treated with rock

phosphate and lime a year ago and had 100 pounds of 12-12-12 on at planting time. The seed was of the Piper variety planted at 20 pounds per acre.

Their thoughts for next year are about 30 acres planted in five-acre plots with the planting time spread from mid-April to the last of May.

### With Supply Ship

Bennie L. Barber, airman, USN, son of Byron Barber, 232 South Missouri, is serving aboard the aviation supply ship USS Jupiter at Yokosuka, Japan.

The Jupiter, the only aviation supply ship in the U. S. Navy, delivers aviation stores to carriers operating in the Western Pacific.

### Pebekah Home Club Meets at Loney Home

The Rebekah Home Club had their February meeting Wednesday evening at the home of Mrs. Eldon Loney.

Mrs. Lewis Leaton opened the meeting with a poem, "The Real Gift of Friendship," followed by the Lord's Prayer.

Roll was answered by telling if they had heard from their secret pal.

Refreshments were served to 14 members.

Frozen desserts need mellowing! Their texture and flavor will usually be improved if they are left in the freezing compartment for some time before they are served, but at a slightly warmer temperature than that used for freezing.
